Notes 1.—The standard in subjects in Station A. except Mathematics will be that of the Intermediate examination of an Indian University. The standard in Mathematics will be that shown in the Appendix. The standard in subjects in Station B. will be that of the B.A. (First) examination of an Indian University.

Notes 2.—Rupees are for the Indian (Bazaar) Price Scale in circulation in India in previous years in circulation in payment for the Station. Government of India (General Provisions) Board, Calcutta.

14. The Public Service Commission will, if they think it desirable, determine what shall be the

qualifying marks in all or any of the subjects of examination.

15. From the marks assigned to candidates in each subject, each candidate will be made as the Public Service Commission may consider necessary in order to ensure that an equal is allowed for nearly equal knowledge.

16. If a candidate's handwriting is not easily legible, a declaration will be made as the extent from the total marks otherwise accruing to him.

17. Credit will be given for good English (including style, spelling and correct expression) awarded with due economy of words in all the subjects of the examination, and not only in the subjects which are specially directed to English.

18. Candidates must apply before the 26th June 1929, through the Collector of the District in which they reside to the Chief Secretary to the Government of Madras. A candidate from Coorg must apply through the Chief Commissioner of Coorg. A candidate from a State in India must apply through his Political Officer or Agent. Candidates of the Chief Commissioners of Coorg or the Political Officer or Agent should forward to the Chief Secretary to Government the application with the certificate in the form attached to the application so as to reach him not later than the 1st July 1929. If in any case it is impossible to complete the requisite by the date, the Collector or the Chief Commissioner of Coorg or the Political Officer or Agent should send the certificate subject to any necessary provisions, and should furnish the result of his enquiries as soon as possible. Copies of the application form may be obtained from the Chief Secretary to Government.

19. No applicant that an Application Form or letter requesting such form has been lost or delayed in the post will be considered unless the person making such application provides a Post Office certificate for posting. Candidates who delay their applications till a late date do so at their own risk.

20. No recommendations except those invited in the form of application will be taken into consideration. Any attempt on the part of a candidate to obtain support for his application by other means may disqualify him for selection.

ANNEXURE.

Syllabus in Elementary Mathematics.

The course is as follows:—

(1) *Arithmetic*.—The whole of arithmetic, (the use of algebraical symbols and processes will be permitted.)

(2) *Algebra*.—The four simple rules; Fractions; Greatest Common Measure; Least Common Multiple; Ratios; Binomial Theorem; Properties of Simple Equations of one or more unknown quantities with any problem; Quadratic Equations, with any problem and theory of Quadratic Equations, Graphs and their applications. (Candidates should be provided with squared paper.)

(3) *Geometry*.—Euclid and Theoretical Geometry.

The questions on Practical Geometry will be set on the construction contained in the annexed Schedule A, together with any extension of them. All figures should be drawn accurately, for which purpose every candidate should provide himself with a graduated scale, a pair of set squares, a protractor, a pair of compasses and a hard pencil.

The questions on Theoretical Geometry will deal with the subjects enumerated in Schedule B, and may include any other not enumerated therein. Any proof of a proposition will be accepted which appears to the examiners to form part of a systematic treatment of the subject. In the proof of the theorems hypothetical constructions will be permitted.

SOLUTIONS.

(Candidates will be provided with squared paper.)

- Bisecting of angles and of straight lines.
 Construction of perpendicular to straight lines.
 Construction of an angle equal to a given angle.
 Construction of parallel to a given straight line.
 Simple cases of the construction from sufficient data of triangles and quadrilaterals.
 Division of straight lines into a given number of equal parts or into parts in any given proportions.
 Construction of a triangle equal in area to a given polygon.
 Construction of tangents to a circle and of secants to a circle.
 Simple cases of the construction of circles from sufficient data.
 Construction of a fourth proportional to three given straight lines and a mean proportional to two given straight lines.
 Construction of regular figures of 3, 4, 5 or 6 sides in or about a given circle.
 Construction of a square equal in area to a given polygon.

SOLUTIONS.

- Angles at a point.
 Parallel straight lines.
 Triangles and quadrilateral figures.
 Triangular and quadrilateral areas.
 Simple lines.
 The circle.
 Properties of similar triangles.

A. T. G. CAMPBELL,
Chief Secretary.

FINANCE DEPARTMENT.

NOTIFICATIONS.

For St. George, April 3, 1919
 (S.O. No. 29, Finance).

No. 48.—In exercise of the powers conferred by Fundamental Rule 55 and in pursuance of the provision of Fundamental Rule 5, the Governor in Council and the Governor acting with the Minister declare that the following is substituted for the last paragraph of Explanation 3 on Schedule 1 in the Fundamental Rule 55—

"The term does not include a vacation except in the case of District and Sessions Judges and Additional Sessions Judges on such local holidays as may be granted at the discretion of heads of offices or holidays which are necessarily permissible or discretionary."

E. C. WOOD,
Deputy Secretary to Government.

For St. George, May 21, 1919

No. 48.—The following notifications of the Government of India are republished—

FINANCE DEPARTMENT (GENERAL REVENUE).
 Customs Examinations.

On 27th April 1919.

No. 28,000, Mr. N. D'Cunha, an Assistant Collector in the Imperial Customs Service at Madras, is granted leave on average pay for one month and twenty-nine days, with effect from the 11th May 1919 to date of relief.

CENTRAL BOARD OF REVENUE.
 Customs Examinations.

On 27th April 1919.

No. 28,000—Mr. A. J. Giddens, Inspector, Bangalore Customs Circle, returned from leave, granted to

him in the Board's Notification No. 28,000—Bangalore Customs Circle, dated the 25th March 1919, on the forenoon of the 13th April 1919. The unexpired portion of his leave, viz., from the 13th to the 25th April 1919, is hereby cancelled.

No. 47.—The following notification and resolution of the Government of India are republished—

FINANCE DEPARTMENT.

Notice.

The 2nd May 1919.

The Indian Audit and Accounts Service, the Military Accounts Department and the Imperial Customs Service.

No. F-2611/R. II.—In pursuance of the notification for admission to these Services will be held at Delhi beginning on Monday, the 2nd December 1918. The rules for the examination are published separately in the Gazette with Resolution No. F-2611/R. II of to-day's date. Candidates accepted for admission to the examination will be referred to what place in Delhi and at what hour they should present themselves.

The number of candidates for each service to be entered at the examination will be announced hereafter.

A candidate seeking admission to the examination must apply on the prescribed form, before the 31st August 1919 through the Collector or Deputy Commissioner of the District in which he resides to the authority mentioned in rule 3 of the Rules. A candidate from a State in India must apply through the Political Officer or Agent. Copies of the application form may be obtained from the Secretary to the Public Service Commission, Delhi, or from the authority mentioned in rule 3.

No allegation that an applicant has not or a letter reporting such fact has been lost or delayed in the post will be considered, unless the person seeking such an allegation produces a Post Office Certificate of posting. Candidates who delay their applications until a late date will do so at their own risk.

The number of appointments which will be awarded for competition will not represent the total number of vacancies to be filled in India, as certain vacancies will be reserved in accordance with the pledge given by the Honorable the Home Minister in the Council of State on the 2nd March 1915, and will be filled, if necessary, by nomination for the purpose of advancing unreserved appointments which may arise from the results of the competitive examination.

Special rules applicable to Indian candidates will be issued later. Indian candidates shall not compete at the competitive examination to be held under rule 1 on the year 1919.

Enclosures.

The 2nd May 1919.

For the examination of candidates for admission to the Indian Audit and Accounts Service, the Military Accounts Department and the Imperial Customs Service.

No. F-2611/R. II.—In pursuance of the Department Resolution No. F-1611/R. II, dated the 10th May 1919, the following revised rules, which are liable to alteration from year to year, are specified for the examination of candidates in India for admission to the Indian Audit and Accounts Service, the Military Accounts Department and the Imperial Customs Service. Special rules applicable to Indian candidates will be issued later. Indian candidates shall not compete at the competitive examination to be held under rule 1 in the year 1919.

1. A comprehensive examination for admission to the Indian Audit and Accounts Service, the Military Accounts Department and the Imperial Customs Service shall be held in India at such time as the Governor-General in Council may direct.

2. The maximum number of candidates to be admitted to the examination may, at the discretion of the Governor-General in Council, be fixed at such number, not being less than 500, as the Governor-General in Council may decide. If the number of candidates exceeds that limit, the Public Service Commission shall select from among the applicants those who shall be admitted to the examination, having regard to the suitability of the applicants for the services in question.

3. (1) A candidate shall apply to be admitted to the examination before such date, and in such form, as the Governor-General in Council may prescribe.

(2) If a candidate is employed at the date of his application in Government service he shall make application through the head of his Department to the Local Government if he is employed by the Local Government, or to the Government of India if he is employed in a Government office under the control of the Government of India.

(3) If he is not in such service, he shall apply to the authority of the area in which he presently resides at the time of the application, as hereinafter provided for a period of not less than three years, or in which he has himself resided (exclusive of time as a student at a University only) for the like period.

The authority of the area in which application shall be made, shall, if the application is based on residence in a Governor's province, be the Local Government of that province; if it is based on residence in Coorg, the South-West Frontier Province, Delhi or Ajmer-Merwara, be the Chief Commissioner concerned; and, if it is based on residence in a State in India, be the Political Officer or Agent through the Durbar.

(4) No candidate shall make more than one application in any year.

4. A candidate must have made who is either (a) a British subject of Indian domicile, who was, and whose father and mother were, born within His Majesty's dominions and allegiance; or (b) a British subject of Indian domicile whose father was at the time of the candidate's birth and still is (or if dead, deceased) not by death but a British subject or a subject of a State in India or (c) a subject of a State in India in respect of whom the Governor-General in Council has made an declaration under section 10-A of the Government of India Act.

5. A candidate must have attained the age of 22 and must not have attained the age of 35, on the 1st day of August in the year in which the examination is held, provided that a candidate, over the age of 35 and under the age of 39 on that date, may be admitted to the examination (a) if he holds a substantive post under Government and (b) if he is recommended by the head of the Department.

6. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient discharge of his duties and a candidate who is found, after examination by a Medical Board, not to satisfy these requirements, will not be accepted for admission to the examination.

7. A candidate must satisfy the Governor-General in Council that his character is such as to qualify him for employment in the public service. No candidate, who is in the employment of Government, will be admitted to the examination unless the report from the head of his Department as to his character and attainments is satisfactory.

8. A candidate must hold a Degree of a University approved by the Governor-General in Council or the Senior Diploma of the Mayo College, Agra. In exceptional cases the Public Service Commission, or, as the recommendation of the Local Government, may, in a qualified candidate, a candidate, who, though not possessing any of the foregoing qualifications, has passed examinations conducted by other institutions of a standard which, in the opinion of the Commission, justifies his admission to the examination.

9. No candidate shall be admitted to the examination unless he holds a certificate given by the Public Service Commission of having been accepted for admission.

10. Candidates must pay the following fees:—

(1) Rs. 5 with the application form;
(2) Rs. 10 for the examination by a Medical Board; and

(3) If accepted for admission to the examination, Rs. 20 within three weeks after the publication of acceptance.

No claim for a refund of these fees will be entertained.

11. The examination will include the following subjects. Each subject carries the number of marks shown against it:—

Section A to be taken by all candidates:—
English 200
Pun. Eng. 200

Section B candidates are allowed to take not more than two of the following subjects, each of which carries a maximum of 400 marks:—

Political Economy and Economic History
Mathematics (pure and mixed).
Physics

Chemistry
Indian and English History.
Philosophy.

Zoology.

Geology.

One of the following classical languages with its literature:—

Latin, Greek, Sanskrit, Arabic and Persian.

12. A candidate who takes Physics or Chemistry or Botany or Zoology as an optional subject must have undergone one year's laboratory training in an institution authorized to prepare candidates in that subject for a University Degree and must send in a voucher to that effect from the head of the Institution.

13. If a candidate's handwriting is not easily legible, a declaration, which may be of considerable amount, will be made on this point from the trial marks otherwise scoring to him.

14. A list of non-competitors shall be made out in order of their preference as declared by the aggregate marks finally scored in each competitor and be that order so many competitors up to the determined number of appointments as are found by the Public Service Commission to be qualified by examination, shall be designated to be selected.

* The following Candidates have been approved by the Governor-General in Council, viz.:

Indian Commission.

Any University represented by an Act of the Council as a Federal Legislature in India.

The Mayo University,
The Queen's University.

English and English Universities.

The Universities of Birmingham, Bristol, Cambridge, Durham, Leeds, Liverpool, London, Manchester, Oxford, Sheffield, Wales and Reading.

And Government.

The Colonization of America, Edinburgh, Glasgow and St. Andrew.

And Government.

The University of Poitiers (and Faculty College), the Queen's University of Belfast.

(Marine.)

NOTIFICATION.

Port St. George, May 21, 1929.

No. 12.—The following notification of the Government of India are republished:—

DEPARTMENT OF COMMERCE.

MERCHANT SHIPPING.

Bombay, the 27th April 1929.

No. 52-M-1,120.—In exercise of the powers conferred by sub-section (2) of section 191 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), the Governor-General in Council is pleased to make the following rules regarding life saving appliances on native passenger ships, the same having been previously published as required by sub-section (2) of the said section, namely:—

RULES.

1. (1) These rules may be called the Life Saving Appliances (Native Passenger Ships) Rules, 1923.

(2) They apply to native passenger ships, and shall come into force on the 1st day of August 1929 from which date rule IX of the rules published with the notification of the Government of India in the India Department of Finance and Commerce, No. 1354, dated the 14th March 1929, shall be cancelled.

Provided that these rules shall not apply, and rule IX of the rules published with the said notification shall continue to apply, to native passenger ships with regard to which a certificate of survey was granted before the 1st day of August 1929, under section 136 or section 144 of the Indian Merchant Shipping Act, 1923, while such certificate is in force.

2. In these rules, unless there is anything repugnant in the subject or context:—

(1) "Approved" means approved by the Governor-General in Council.

(2) "Daylight" means the period from one hour before sunrise until one hour after sunset.

(3) "Length" in connection with a ship means the registered length of the ship.

(4) "Special Boat-deck" means any deck on which boats are carried and of which the space required for the storage of boats under rule 29 occupies half or more of the length of such deck.

(5) "Surveyor" means a Surveyor appointed under section 129 of the Indian Merchant Shipping Act, 1923.

3. For the purpose of these rules native passenger ships shall be arranged in the following Classes:—

Class I.

Foreign-going steam-ships other than foreign-going steamships in Class II (1) and Class III (1).

Class II.

(1) Foreign-going steamships other than foreign-going steamships in Class III (1) voyaging to or from ports in British India

from or to ports on the Red Sea or Persian Gulf only.

(2) Home-trade steamships voyaging to or from Aden or Portia from or to any port within home-trade limits except Portia or Aden.

Class III.

(1) Foreign-going steam-ships voyaging to or from Aden or Portia from or to ports on the Gulf of Aden or the Red Sea.

(2) Home-trade steam-ships which do not ordinarily keep within 20 miles of the coast line other than home-trade steamships in Class II (2) and Class IV (2).

Class IV.

(1) Home-trade steam-ships which ordinarily keep within 20 miles of the coast line other than home-trade steamships in Class V.

(2) Home-trade steam-ships which while ordinarily keeping within 20 miles of the coast line cross during their voyage the Gulls of Orisk, Canby or Mesopot.

Class V.

(1) Home-trade steamships which ordinarily keep within 5 miles of the coast line.

(2) Home-trade steamships plying between Diarukhadi and Tabinmanan.

Class VI.

All sailing ships.

Provided that a ship of Class I or II which during a portion of the voyage would fall within the definition of a ship of Class III, IV or V shall not, during that portion of her voyage, be required to be provided with life saving appliances in excess of those prescribed for a ship of that class.

Class I.

4. A ship of this class shall, subject to the provisions of sub-rule (1) of rule 47, be provided,

in accordance with her length, with the number of sets of davits specified in Column A of the Table in Appendix I:

Provided that no such ship shall be required to have a number of sets of davits greater than the number of boats required to accommodate the total number of persons which is carried or which the ship is entitled to carry on the voyage on which she is proceeding, whichever number is the greater, and provided further that the Governor-General in Council may, where it appears to him necessary, having regard to the height at which the boats are carried above the hulls and to the other circumstances of the case require a ship of this class to carry in lieu of, or in addition to, davits, some other approved form of hoisting appliances, or such arrangements for launching boats as may be, in his opinion, effective.

5. (1) Each set of davits shall have a life-boat of Class I attached

Schedule.

to it, and of these life-boats at least the minimum number specified in Column B of the Table in Appendix I shall be open boats.

(3) Any additional lifeboats which may be required to make up the total lifeboat accommodation required by rule 7, may be built of Class 1 or Class 2.

5. A ship of this class shall carry, in addition to the lifeboats carried under rule 5, approved buoyant apparatus conforming to the conditions detailed in rule 23, sufficient to support twenty-five per cent. of the total number of persons which it carries or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater.

7. (1) Where the lifeboats carried under sub-rule (1) of rule 5 do not furnish sufficient accommodation for the total number of persons carried or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater, then arrangements shall be made to the satisfaction of the Governor-General in Council to carry such additional lifeboats as are required to make up the deficiency in such manner that they can be stored without in any way impeding the prompt launching of the lifeboats carried under sub-rule (1) of rule 5, or the buoyant apparatus carried under rule 6, or the manning of the persons on board at the launching stations or their embarkation. So far as practicable without creating such impediment, these additional lifeboats shall be distributed as follows:—

(a) One additional lifeboat under each set of davits.

(b) Other additional lifeboats, stowed on the deck or bridge, or poop, as far as is available as far as practicable for use on either side of the ship, and so secured that they will have the best chance of floating free of the ship if there is no time to launch them.

(2) Where the Governor-General in Council is satisfied that in a ship of this class launched before the 1st August 1927 it is not possible to carry, in the manner provided in sub-rule (1) of rule 5 and sub-rule (1) of this rule, lifeboats, in such numbers and capacity as would be sufficient to accommodate the total number of persons carried or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater, he may allow additional approved buoyant apparatus to be carried in lieu of lifeboats sufficient for those persons for whom accommodation is not provided in lifeboats. Provided that no buoyant apparatus shall be allowed on a ship of this class in lieu of a lifeboat required by these rules unless the total cubic capacity of the lifeboats is at least equal to the greater of the two following amounts:—

(a) Seventy-five per cent. of the total capacity required to accommodate all the persons carried.

(b) The minimum capacity required by Column C of the Table in Appendix I.

(3) The master or owner of a ship of this class claiming to carry on any voyage fewer lifeboats or in the case of a ship to which sub-rule (2) applies fewer lifeboats and approved buoyant apparatus than will provide sufficient accommodation for all the persons for which the ship is certified, must declare before the Port Officer, before the time of clearance, that the lifeboats or the lifeboats and approved buoyant apparatus, as the case may be, actually carried will be sufficient to accommodate all persons who will be carried at any time during the voyage beyond the limits prescribed for a ship of Class III, IV or V under these rules, and that in addition, approved buoyant apparatus will be carried sufficient for twenty-five per cent. of all such persons. In the case of a ship to which sub-rule (2) applies the master or owner of which claims to carry fewer lifeboats and approved buoyant apparatus than will provide accommodation for all the persons for which the ship is certified, a further declaration must be made by the master or owner that the total cubic capacity of the lifeboats actually carried is not less than is required by sub-rule (2), provided that no greater number of lifeboats need be carried than is sufficient to accommodate all the persons carried.

8. (1) Where the number of lifeboats is more than five, one of them shall be fitted with an approved wireless telegraphy installation complying with the provisions of rule 22, and where the number is more than fifteen, one shall be a motor boat fitted with an approved wireless telegraphy installation complying with the provisions of rule 22, and where the number is more than twenty, two of the lifeboats shall be motor boats so fitted. All such motor boats shall be fitted with searchlights.

(2) The Governor-General in Council may, at his discretion, upon the application of an owner, allow a greater number of motor lifeboats to be carried if he is satisfied that the efficiency of the life saving equipment will not thereby be diminished.

9. If the ship is under 450 feet in length, at least two approved lifeboats shall be carried; if 400 feet or over, but under 500 feet, at least eighteen approved lifeboats shall be carried; if 500 feet or over, but under 580 feet, at least twenty-four approved lifeboats shall be carried; and if 580 feet or over, at least thirty approved lifeboats shall be carried.

10. One approved life-jacket shall be carried for each person on board.

Class II.

11. (1) A ship of this class shall, subject to the provisions of sub-rule (2) of rule 47, be provided, in accordance with her length, with the

number of sets of davits specified in column A of the Table in Appendix I:

Provided that no such ship shall be required to have a number of sets of davits greater than the number of lifeboats required, to accommodate the total number of persons which is carried or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater:

Provided further that the Governor-General in Council may, where it appears to him necessary, having regard to the height at which the boats are carried above the loading and to the other circumstances of the case, exempt a ship of this class to carry in her stow, or in addition to, davits, some other approved form of launching appliances, or such arrangements for launching boats as may be, in his opinion, effective.

(4) (a) A ship of this class shall carry lifeboats of the minimum aggregate capacity specified in Column B of the Table in Appendix I and at least one of the lifeboats shall be a motor boat.

(b) Each set of davits shall have a lifeboat of Class I attached to it, and of these lifeboats at least the minimum number specified in Column B of the Table in Appendix I shall be open boats.

(c) Any additional lifeboats which may be required to make up the total lifeboat accommodation required by clause (a) may be boats of Class I or Class 2:

* Provided that no ship shall be required to carry lifeboats of an aggregate capacity greater than is required to accommodate the total number of persons which is carried or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater.

12. If the lifeboats carried do not provide sufficient accommodation for the total number of persons which is carried or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater, approved buoyant apparatus shall be carried sufficient for those persons for whom accommodation is not provided in lifeboats.

13. The master or owner of a ship of this class claiming to carry

Exemption in case on any voyage fewer lifeboats and approved buoyant apparatus than will provide sufficient accommodation for all the persons for which the ship is certified, must declare before the Port Officer, before the time of clearance, that the lifeboats or the lifeboats and approved buoyant apparatus, as the case may be, actually carried, will be sufficient to accommodate all persons who will be carried at any time during the voyage beyond the limits prescribed for a ship of Class III, IV or V under these rules.

14. The provisions for the carrying of lifeboats and life-rafts on ships of this class shall be the same as those prescribed in rules 9 and 10 for ships of Class I.

Class III.

15. (1) A ship of this class shall, subject to the provisions of sub-rule (1) of rule 47, be provided, in accordance with her length, with the number of sets of davits specified in Column A of the Table in Appendix I:

Provided that no such ship shall be required to have a number of sets of davits greater than the number of lifeboats required to accommodate the total number of persons which is carried or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater.

(2) (a) A ship of this class shall carry lifeboats of the minimum aggregate capacity specified in Column B of the Table in Appendix I; and at least one of the lifeboats shall be a motor boat.

(b) Each set of davits shall have a lifeboat of Class I attached to it, and of these lifeboats at least the minimum number specified in Column B of the Table in Appendix I shall be open boats.

(c) Any additional lifeboats which may be required to make up the total lifeboat accommodation required by clause (a) may be boats of Class I or Class 2.

Provided that no ship shall be required to carry lifeboats of an aggregate capacity greater than is required to accommodate the total number of persons which is carried or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater.

16. If the lifeboats carried do not provide sufficient accommodation for eighty per cent of the total number of persons which is carried or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater, approved buoyant apparatus shall be carried so that they, together with the lifeboats, shall provide sufficient accommodation for at least eighty per cent of that number.

17. The master or owner of a ship of this class claiming to carry on

Exemption in case on any voyage fewer lifeboats and approved buoyant apparatus than will provide accommodation for all the persons for which the ship is certified, must declare before the Port Officer, before the time of clearance, that the lifeboats or the lifeboats and approved buoyant apparatus, as the case may be, actually carried, will be sufficient to accommodate all persons who will be carried at any time during the voyage.

18. A ship of this class shall carry at least one approved lifeboat together with an approved life-raft for each person on board.

Class IV.

23. (1) A ship of this class shall, subject to the provisions of sub-rule 2, be provided, in accordance with her length, with the number of sets of davits specified in Column A of the Table in Appendix I:

Provided that no such ship shall be required to have a number of sets of davits greater than the number of lifeboats required to accommodate the total number of persons which is carried or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater.

- (2) (a) A ship of this class shall carry lifeboats of the minimum aggregate capacity specified in Column B of the Table in Appendix I; and if the number of lifeboats exceeds fifteen, at least one shall be a motor boat.

(b) Each set of davits shall have a lifeboat of Class I attached to it, and of these lifeboats at least the minimum number specified in Column B of the Table in Appendix I shall be open boats.

(c) Any additional lifeboats which may be required to make up the total lifeboat accommodation required by clause (a) may be boats of Class I or Class II.

Provided that no ship shall be required to carry lifeboats of an aggregate capacity greater than is required to accommodate the total number of persons which is carried or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater.

23. If the lifeboats carried do not provide sufficient accommodation for thirty per cent. of the total number of persons which is carried or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater, approved buoyant apparatus shall be carried so that they, together with the lifeboats, shall provide sufficient accommodation for at least sixty per cent. of that number.

24. The provisions for the carrying of lifeboats and life-jackets on ships of this class shall be the same as those prescribed in rule 15 for ships of Class III.

Class V.

25. (1) A ship of this class shall, subject to the provisions of sub-rule 2, be provided, in accordance with her length, with the number of sets of davits specified in the second column of the Table in Appendix I:

Provided that no such ship shall be required to have a number of sets of davits greater than the number of lifeboats required to accommodate the total number of persons which is carried, or which the ship is certified to carry

on the voyage on which she is proceeding, whichever number is the greater.

- (2) (a) A ship of this class shall carry lifeboats of the minimum aggregate capacity specified in the third column of the Table in Appendix I.

(b) Each set of davits shall have a lifeboat of Class I attached to it.

(c) Any additional lifeboats which may be required to make up the total lifeboat accommodation required by clause (a) may be boats of Class 2 or Class 3.

Provided that no ship shall be required to carry lifeboats of an aggregate capacity greater than is required to accommodate the total number of persons which is carried or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater.

26. If the lifeboats carried do not provide sufficient accommodation for thirty per cent. of the total number of persons which is carried or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater, approved buoyant apparatus shall be carried so that they, together with the lifeboats, shall provide sufficient accommodation for at least thirty per cent. of that number.

27. The provisions for the carrying of lifeboats and life-jackets on ships of this class shall be the same as those prescribed in rule 15 for ships of Class III.

Class VI.

28. Every sailing ship of 60 tons gross register tonnage, or over, shall be provided with lifeboats which need not necessarily be lifeboats sufficient to accommodate the total number of persons carried or which the ship is certified to carry on the voyage on which she is proceeding, whichever number is the greater, and when this is practicable and reasonable a set of davits for each boat carried.

29. Every sailing ship shall carry at least four approved lifeboats.
30. One approved life-jacket shall be carried for each person on board.

General.

31. The Governor General in Council may, in general or in any particular case, except any life saving appliance or arrangement required by these rules subject to such conditions as he may impose.

Provided that in the case of ships of Class I no life saving appliance shall be accepted in lieu of a lifeboat required by these rules, except some other approved type of lifeboat.

29. For the purposes of these rules lifeboats constructed of life are arranged in the following classes:—

Class 1.

A.—Open lifeboats with external buoyancy only.

The buoyancy of a wooden boat of this type shall be provided by watertight air-cases, the total volume of which shall be at least equal to one-tenth of the cubic capacity of the boat.

In the case of a metal boat an addition shall be made to the cubic capacity of the airtight compartments, so as to give it buoyancy equal to that of the wooden boat.

B.—Open lifeboats with external and internal buoyancy.

The internal buoyancy of a wooden boat of this type shall be provided by watertight air-cases, the total volume of which shall be at least equal to seven and a half per cent. of the cubic capacity of the boat.

If the external buoyancy is of cork, its volume, for a wooden boat, shall not be less than thirty-three thousandths of the cubic capacity of the boat; if of any material other than cork, its volume and distribution shall be such that the buoyancy and stability of the boat are not less than that of a similar boat provided with external buoyancy of cork.

In the case of a metal boat an addition shall be made to the cubic capacity of the airtight compartments, so as to give it buoyancy equal to that of the wooden boat.

C.—Pontoon lifeboats having a well deck and fixed watertight bulkheads.

The area of the well deck of a boat of this type shall be at least thirty per cent. of the total deck area. The height of the well deck above the water-line at all points shall be at least equal to one-half per cent. of the length of the boat, this height rising to one and a half per cent. of the length of the boat at the ends of the well.

The freeboard of a boat of this type shall be such as to provide for a reserve buoyancy of at least thirty-five per cent.

Class 2.

A.—Open lifeboats having the upper part of the side collapsible.

A boat of this type shall be fitted both with watertight air-cases and with external buoyancy, the volume of which, for each piece which the boat is able to accommodate, shall be at least equal to the following amounts:—

	Cubic feet.
Air cases	1.5
External buoyancy (if of cork) ..	0.2

The minimum freeboard of boats of this type is fixed in relation to their length; it shall be measured vertically in the top of the side hull at the side amidships from the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts:—

Length of the boat in feet.	Minimum Freeboard in inches.
25	8
28	9
30	10

The freeboard at beams of intermediate lengths shall be found by interpolation.

B.—Pontoon lifeboats having a well deck and collapsible bulkheads.

All the conditions laid down for boats of Class 1C shall be applied to boats of this type, which differ from those of Class 1C only in regard to the bulkheads.

C.—Pontoon lifeboats having a flush deck and collapsible bulkheads.

The minimum freeboard of boats of this type is independent of their length and depends only upon their depth. The depth of the boat shall be measured vertically from the waterline of the garboard strake to the top of the deck at the side amidships and the freeboard shall be measured from the top of the deck at the side amidships to the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts, which are applicable without correction to boats having a mean draft equal to three per cent. of their length:—

Depth of Boat in inches.	Minimum Freeboard in inches.
12	2½
18	3½
24	5½
30	6½

For intermediate depths the freeboard shall be obtained by interpolation.

If the sheer is less than the standard sheer defined above, the minimum freeboard shall be obtained by adding to the figure in the table one-fourth of the difference between the standard sheer and the actual mean sheer measured at the stem and stern post; no deduction shall be made from the freeboard on account of the sheer being greater than the standard sheer or on account of the camber of the deck.

Class 3.

Open boats which have not the buoyancy required for lifeboats of Class 1.

30 (1) A motor boat carried as part of the main deck, statutory life saving appliances of a motor passenger ship, shall comply with the following conditions:—

(a) It shall comply with the requirements for a lifeboat of Class 1, and proper appliances shall be provided for putting it into the water specially.

(b) It shall be adequately provided with fuel and kept so as to be at all times ready for use.

(2) A motor boat carried in compliance with sub-rule (1) of rule 8, shall, in addition, comply with the following conditions:—

(a) It shall be fitted with a searchlight or searchlights of an approved pattern.

(b) It shall be fitted with an approved wireless telegraphy installation.

(c) It shall be provided with sufficient fittings for towing lifeboats.

(3) In fixing the volume of the internal buoyancy and, where fitted, the external buoyancy, regard shall be had to the difference between the weight of the motor and its accessories, the searchlight and the wireless telegraphy installation and the weight of the additional persons which the boat could accommodate if the motor and its accessories, the searchlight and the wireless telegraphy installation were removed.

31. (1) All boats shall be properly constructed, constructed of—
 (a) ad, and shall be of such form and proportions that they shall have ample stability in a seaway, and sufficient freedom when loaded with their full complement of persons and equipment. They shall be fitted and arranged to the satisfaction of the Governor-General in Council.

(2) The structural strength of the boat shall be to the satisfaction of the Governor-General in Council. In the case of native passenger ships launched on or after the 1st August 1929, the strength shall be sufficient to permit of the boats being safely lowered into the water with the full complement of persons and equipment on board.

Provided that this requirement shall not apply to any ship other than a ship of Class I or Class II, where the height of the boat deck above the waterline at the vessel's lightest loading draught does not exceed 15 feet.

(3) In all open boats, all thwart and side seating accommodation shall be fitted as hereinafter provided, and shall provide seating accommodation for all persons the boat is deemed fit to carry and bottom boards shall be fitted so that the thwarts shall not be more than 2 feet 2 inches above them.

(4) Internal buoyancy apparatus shall be constructed of copper or yellow metal of not less than 15 ounces to the superficial foot, or of other durable material, and in open boats of Class I may be placed along the sides or at the ends of the boat, but not on the bottom of the boat. External buoyancy apparatus may be of cork or of any other equally efficient approved material; the use of rubber, cork shavings, loose paraffined cork, or any other loose granulated substance, and the use of apparatus dependent upon inflation by air, is prohibited.

(5) Open lifeboats of Class I shall have a keel, which shall be at least equal to four per cent. of their length.

(6) Puncture lifeboats may be built of wood or metal. If constructed of wood, they shall have the bottom and deck made of two thicknesses with suitable material between; if of metal, they shall be divided into watertight compartments with means of access to each compartment and shall be provided with at least two large pumps.

(7) All puncture lifeboats shall be fitted with efficient means for quickly clearing the deck of water. The orifices for this purpose shall be such that the water cannot enter the boat through them when they are submerged. The number and size of the orifices shall be determined by the Governor-General in Council for each type of boat by a special test.

For the purpose of this test:—

(a) The puncture boat shall be loaded with a weight of mass equal to that of its complement of persons and equipment.

(b) In the case of a boat 28 feet in length, two tons of water shall be cleared from the boat in a time not exceeding the following:—

Class 1C	50 seconds.
Class 2B	60 seconds.
Class 2C	80 seconds.

In the case of a boat having a length greater or less than 28 feet the weight of water to be cleared in the same time shall be for each type directly proportional to the length of the boat.

(8) No boat shall be accepted as a lifeboat the buoyancy of which depends upon the previous adjustment of one of the principal parts of the boat.

(9) All boats shall be fitted for the use of a steering oar.

(10) All boats shall be permanently marked to the satisfaction of the Governor-General in Council in such a way as to indicate plainly their dimensions and the number of persons for which they are approved. Boats that have been properly marked need not be re-measured, unless there is reason to believe that the marks have been tampered with or are otherwise defective or improper.

32. (1) The number of persons which a lifeboat shall be deemed fit to carry shall be equal to the greatest whole number obtained by dividing the capacity of the boat in cubic feet, or the surface of the boat in square feet, by the area may be calculated as provided by rules 33 and 34, by the standard unit of capacity, or unit of surface, defined below.

(2) The cubic capacity in feet of a boat in which the number of persons is determined by the surface shall be assumed to be two times the number of persons which the boat is authorized to carry.

(3) The standard units of capacity and surface are as follows:—

Units of capacity.	Cubic Feet.
Class 1A	10
Class 1B	2
Class 3	10
Units of surface.	Square Feet.
Class 2A	2½
Class 2B	3½
Class 1C	3½
Class 2B	3½

(4) The Governor-General is Coaxed may accept a smaller divisor for persons boats of Class 1C and Class 2B, if he is satisfied after trial that the number of persons for whom there is seating accommodation in the boat in question is greater than the number obtained by applying the above divisor provided always that the divisor adopted in place of 3½ shall never be less than 3.

(5) The number of persons obtained by the above rules shall be reduced:—

(a) If it is greater than the number of persons for which there is proper seating accommodation, the latter number being determined in such a way that the persons when seated do not interfere in any way with the use of the oars, or

(b) If, in the case of boats other than open boats of Class 1, the foreboard when the boat is fully loaded is less than the foreboard required by these rules.

(6) If the Surveyor is doubtful as to the number of persons any boat is fit to carry he may require the boat to be tested along with the intended number of persons on board.

(7) The Surveyor may limit the number of persons to be allowed in boats with very fine ends and in boats very full in form.

(8) Two children under the age of twelve years may be carried in place of one adult person.

Children.

33 (1) In the case of an open boat of Class 1 the cubic capacity

shall be determined by the following formula:—

$$\text{Capacity} = \frac{1}{12} (A + 3B + 4C).$$

L denotes the length of the boat in feet from inside of the planking or plating at the stern to the corresponding point at the stem post; in the case of a boat with a square stern the length is measured to the inside of the transom.

A , B , C denote respectively the areas of the cross-sections at the quarter length forward, amidships, and the quarter length aft, which correspond to the three points obtained by dividing L into four equal parts (the areas corresponding to the two ends of the boat are considered negligible).

The areas A , B , C shall be deemed to be given in square feet by the successive application of the following formula to each of the three cross-sections:—

$$\text{Area} = \frac{1}{12} (a + 4b + 2c + 4d + e).$$

A denotes the depth measured in feet inside the planking or plating from the keel to the

level of the gunwale, or, in certain cases, to a lower level, as determined hereafter.

a , b , c , d , e denote the horizontal breadth of the boat measured in feet to the inside of the planking at the upper and lower points of the depth and at the three points obtained by dividing A into four equal parts (a and e being the breadths at the extreme points, and c at the middle point, of A).

(2) If the sheer of the gunwale, measured at the two points situated at a quarter of the length of the boat from the ends, exceeds 1 per cent of the length of the boat, the depth employed in calculating the area of the cross-sections A or C shall be deemed to be the depth amidships plus 1 per cent of the length of the boat.

(3) If the depth of the boat amidships exceeds 45 per cent of the breadth, the depth employed in calculating the area of the midship cross-section B shall be deemed to be equal to 45 per cent of the breadth, and the depth employed in calculating the areas of the quarter length sections A and C shall be obtained by increasing the last figure by an amount equal to 1 per cent of the length of the boat, provided that in no case shall the depths employed in the calculation exceed the actual depths at these points.

(4) If the depth of the boat is greater than 4 feet, the number of persons given by the application of these rules shall be reduced in proportion to the ratio of 4 feet to the actual depth, until the boat has been tested along with that number of persons on board all wearing life jackets, and the test has proved satisfactory.

(5) The cubic capacity of a boat may be assumed to be the product of the length, the breadth and the depth multiplied by 5.5 in cases where it is clear that this formula does not give a greater capacity than that obtained by the above method. The dimensions shall then be measured in the following manner:—

Length: From the intersection of the outside of the planking with the stem to the corresponding point at the stern post or, in the case of a square stemmed boat, to the after side of the transom.

Breadth: From the outside of the planking at the point where the breadth of the boat is greatest.

Depth: Amidships inside the planking from the keel to the level of the gunwale, but the depth used in calculating the cubic capacity may not in any case exceed 45 per cent of the breadth.

In all cases the shipowner shall have the right to require that the cubic capacity of the boat shall be determined by exact measurement.

(6) If the oars are pulled in rowlocks, the bottom of the rowlocks shall be considered as the gunwale in measuring the depth of the boat.

(7) The cubic capacity of a motor boat shall be obtained from the gross capacity by deducting a volume equal to that occupied by the various telegraph installations, the searchlight, the motor and its accessories.

36. In the case of pontoon boats and of open boats of Class 2 the surface in square feet shall be determined by the following formula:—

$$(\text{Area} = \frac{1}{12}(3a + 15b + 4c + 15d + 2e)).$$

l denotes the length in feet from the intersection of the centre of the planking with the stem to the corresponding point at the stern post.

a, b, c, d, e denote the horizontal breadth in feet outside the planking at the points obtained by dividing l into four equal parts and subdividing the foremast and aftermast parts into two equal parts (a and e being the breadth at the extreme end divisions, c at the middle point of the length and b and d at the intermediate points).

37. No boat carried in compliance with these rules shall have a capacity of less than 120 cubic feet.

38. In the tests prescribed by these rules for weight of persons, determining the number of persons which a boat can accommodate each person shall be assumed to be an adult person wearing a life-jacket.

In verifications of freeboard the pontoon boats shall be loaded with a weight of at least 100 lbs. for each adult person that the pontoon boat is authorized to carry.

39. (1) The davits shall be of approved form and shall be suitably placed to the satisfaction of the Governor General in Council.

They shall be fitted on one or more of the decks in such positions that the boats can be effectively lowered from them, and shall be so spaced and placed that the boats can be swung out with facility. Davits shall not be fitted in the bows of a ship, but they may be fitted in any other position in the ship, provided that the boats are not brought into dangerous proximity to a propeller at the time of lowering.

(2) The davits, falls, blocks, and all other gear required for lowering the boats, shall be of sufficient strength to the satisfaction of the Governor General in Council. In the case of motor passenger ships launched on or after the 1st August 1908 they shall be of such strength that the boats can be lowered safely with the full complement of persons and equipment, the ship being assumed to have a list of 15 degrees; provided that this requirement shall not apply to any motor passenger ship other than a ship of Class I or Class II, where the height of the main-deck above the water-line at the vessel's lightest sea-going draught does not exceed 35 feet.

(3) In the case of motor passenger ships launched on or after the 1st August 1908, the davits shall be fitted with gear of sufficient power to ensure that the boats can be turned out against the maximum list under which the lowering of the boats is possible, or the davits shall be of the quadrant or other such type as will ensure the above condition being fulfilled; provided that this requirement shall not apply to any motor passenger ship other than a ship of Class I or Class II, where the height of the main-deck above the water-line at the vessel's lightest sea-going draught does not exceed 35 feet.

(4) The boat's falls shall be long enough to lower the boat into the water with safety when the vessel is light. Life lines shall be fitted to the davit spars, and shall be long enough to reach the water when the vessel is light. Hooks shall not be attached to the lower tackle blocks.

(5) Means shall be provided for quickly, but not necessarily simultaneously or automatically, detaching the boats from the falls, the boats placed under davits shall be attached to the falls and kept ready for service; the points of attachment of the boats to the falls shall be sufficiently away from the ends of the boats to ensure their being easily swung clear of the davits; the boats' chocks shall be of such construction and arrangement as shall be satisfactory to the Governor General in Council.

(6) Where more boats than one are served by the same set of davits, arrangements shall be made to prevent the falls loading when they are recovered, and, where more than two boats are served by the same set of davits, there shall be provided an approved appliance for lowering the boats in turn and rapidly.

(7) The Governor General in Council may accept in lieu of davits or sets of davits any other appliance, appliances or arrangements, which appear to him at least as effective as davits for placing the boats in the water.

40. Approved buoyant apparatus, whether buoyant apparatus, buoyant deck seats, or other buoyant apparatus, shall be deemed sufficient, so far as buoyancy is concerned, for a person or number of persons to be substantiated by dividing the number of pounds of buoyancy which it is capable of supporting in fresh water by 32, and if the apparatus depends for its buoyancy on air shall not require to be inflated before use.

Such approved buoyant apparatus shall comply with the following conditions:—

(1) It shall be of approved material and construction.

(2) It shall be reversible.

(3) It shall be of such size, strength and weight that it can be handled without mechanical appliances and, if necessary, can be thrown from the vessel's deck on which it is stored.

(4) The air-cases or equivalent buoyancy shall be placed as near as possible to the sides of the apparatus.

(5) It shall be marked in such a way as plainly to indicate that it is buoyant and the number of persons for which it is approved.

(6) (1) All boats attached to davits and all storage of boats, boats stowed under boats racks, etc.

shall be stowed in such a way that—
(a) They can be launched in the shortest possible time;

(b) They will not impede in any way the prompt handling of any other of the lifeboats attached to davits or stored under boats attached to davits or the buoyant apparatus carried under rule 6, or the manhandling of the persons on board at the launching stations, or their embarkation;

(c) Even under conditions of list and trim unfavourable from the point of view of the handling of the boats as large a number of persons as possible can be embarked in them;

(d) Except as hereinafter provided, they shall be so stored as not to require lifting before being launched.

(2) With regard to the storage of other additional lifeboats and buoyant apparatus the following provisions shall apply:—

(a) They shall not impede in any way the prompt handling of the lifeboats attached to davits or the additional boats stowed under boats attached to davits or the buoyant apparatus or the manhandling of the persons on board at the launching stations or their embarkation;

(b) The lifeboats may be stored one above the other, or they may, subject to such conditions as the Governor General in Council may impose, be fitted one within another, but where boats are fitted one within another before being launched, they shall only be permitted if attached to davits operated by mechanical power appliances;

(c) The lifeboats may be stored in rows across a deck, bridge or poop;

(d) As large a number of the boats as possible shall be capable of being launched on either side of the ship, either by means of approved appliances for transferring them from one side of the deck to the other, or by stowing in rows across the deck, or by some other equally satisfactory means;

(e) Means shall be provided to the satisfaction of the Governor General in Council for lowering the lifeboats into the water in the shortest possible time.

(3) Where a boat is stowed underneath another boat there shall be provided approved removable supports or other approved appliances, so as to ensure that the weight of a boat is not unduly supported by the boat underneath it.

(4) Boats may only be stored on more than one deck on condition that proper measures are taken to prevent the boats from a lower deck being fouled by those from a deck above.

(5) All buoyant apparatus shall be so stored as to be readily available in case of emergency.

40. (1) Every boat which is carried by any passenger ship shall be equipped as follows:—

(a) With the full single handed complement of oars and two spare sets, and a steering oar.

(b) With two plugs for each plug hole, attached with lanyards or chains, and one set and a half of these plugs or catches, attached to the boat by sound lanyards. Plugs shall not be required where proper automatic valves are fitted.

(c) With a sea anchor, a boiler, a galvanised iron basket, a rudder and a tiller, or yoke and yoke lines, a pointer of sufficient length, and a boat-hook. The rudder, the boiler, and the basket shall be attached to the boat by sufficiently long lanyards, and kept ready for use.

(d) With a vessel or vessel capable of holding one quart for each person that the boat is deemed fit to carry. Each such vessel shall be kept filled with fresh water, and provided with a dipper with lanyard.

(e) With two buckets, one to be kept in each end of the boat, and to be attached to the boat by a lanyard.

(f) With a line securely becketed round the outside of the boat.

(g) With an efficient lantern trimmed, with oil in its reservoir sufficient to burn eight hours; or with some other lantern or light at least as effective, approved by the Governor General in Council.

(2) In addition to the equipment prescribed in sub-rule (1), the boats in ships of Classes I and II shall be equipped as provided in clauses (a) to (f), inclusive, of this sub-rule. The boats in ships of Classes III, IV, V and VI shall be provided with the additional equipment specified in clauses (b), (d) and (e) of this sub-rule—

(a) With a mast or masts, and with at least one good sail and proper gear for each; but this does not apply to an approved motor boat.

(b) With an efficient compass.

(c) With an airtight case containing two pounds of biscuits for each person for whom the boat is approved.

(d) With one gallon of vegetable or animal oil, and a vessel of approved pattern for distributing it on the water in rough weather. This vessel shall be capable of being attached to the sea anchor.

(e) With one dozen self-lighting red lights in a watertight tin, and a box of suitable matches in a watertight tin.

(f) With 1 lb. of condensed milk for each person the boat is certified to carry.

(3) All buoyant apparatus carried by a ship of Class I or Class II shall be equipped as follows:—

(a) With two pumps and one boat-hook or two pumps and boat-hooks combined attached to the buoyant apparatus by lanyards.

(b) A pointer of sufficient length.

(c) A line securely bucketed round the outside of the apparatus.

(d) A self-igniting light and two signal flames of approved pattern, the self-igniting light to be attached to the buoyant apparatus by lanyards of suitable length.

Provided that no buoyant apparatus, designed to support less than twenty-five persons the paddles, boat-hook, light and flame need not be carried.

(4) All buoyant apparatus carried by a ship of Class III, IV, V or VI shall be provided with a suitable bucketed line and a painter.

(5) All boats and buoyant apparatus shall be fully equipped before the ship leaves harbour, and the equipment shall remain in the boat or buoyant apparatus throughout the voyage, while the ship is at sea or shall be stored in some convenient place where it will be immediately available in case of emergency.

43. In all ships, approved rope ladders shall be carried in proportion to the number of davits fitted, namely, not less than one ladder for each two sets of davits, provided that no ship shall be required to carry more than 10 ladders. The ladders shall be of sufficient length to reach the water-line at the vessel's lightest sea-going draught and shall be carried in such a manner as to be always available for use in embarking the persons on the boats or rafts.

44. On all ships of Classes I and II in which lifelines, the boat deck is more than 30 feet above the water, provision shall be made for the illumination from the ship of the lifelines when alongside and in process of or immediately after being launched.

45. An approved life-jacket shall mean a jacket of approved material and construction, which is capable of floating in fresh water for 24 hours with 15 lb. of iron suspended from it, or any other approved appliance of equal buoyancy and capable of being fitted on the body. It shall be reversible and suitable both for adults and children. Life-jackets the buoyancy of which depends on air compartments are prohibited.

46. (1) (a) An approved lifebuoy shall be of solid cork or other equivalent material. It shall be capable of floating in fresh water for at least 24 hours with 32 lb. of iron suspended from it.

(b) Lifebuoys fitted with ratches, cork shavings, granulated cork or any other loose protruded material, or whose buoyancy depends upon air compartments requiring inflation, are prohibited.

(2) All lifebuoys shall be fitted with buckles securely wound, and at least one on each side of the ship shall be fitted with a life-line at least 15 fathoms in length.

47. All lifebuoys and life-jackets shall be suitably placed to the satisfaction of the Surveyor and so as to be readily accessible to all persons on board; and their position shall be plainly indicated so that it may be known to them in whom they are intended.

Lifebuoys shall always be capable of being rapidly cast loose and shall not be rigidly secured in any way.

Life-jackets may be stored either in lockers over the passenger decks or in boxes under the charge of stowage as well as in the buoyant seats when these are used. The contents of the boxes shall be clearly painted on them and illustrated notices in the vernacular shall be posted up in different parts of the ship explaining to passengers where to find life-jackets and how to use them. In addition, their use shall be demonstrated by the crew both during boat drills and periodically at other times.

48. (1) Any lifeboat which forms part of the equipment of a native passenger ship that was launched before the 1st August 1929 and which has been inspected and approved by the Governor General in Council before that date, may be accepted or equivalent to a lifeboat so long as it remains in good condition.

(2) Lifeboats which were ordered before the 1st August 1929 in order to complete the equipment of a ship, but which were not delivered in time to be inspected by the Governor General in Council before that date, may be accepted as equivalent to lifeboats so long as they remain in good condition.

Provided that such lifeboats shall not be so accepted, unless—

(a) they have been inspected, where this has not already been done;

(b) they would have complied with the requirements of the rules in force prior to the 1st August 1929.

49. (1) If it appears to the Governor General in Council, on the application of the owner of any native passenger ship, that it is not practicable or unreasonable to fit in that ship the number of sets of davits required by these rules, he may direct that one or more sets of davits may be dispensed with in that ship subject to such conditions, if any, as he may require.

Provided that, in the case of a ship of Class I the number of davits fitted shall not be less than the minimum number of open boats of Class I except in the following cases:—

When a ship has been granted in "A" Certificate provision in the 1st August 1929 the minimum number of sets of davits may, if the ship is between 245 feet and 428 feet in length, be one less, and if the ship is 428 feet or more in length, two less (one on each side of the

ship) than the minimum number of open boats specified in Column B of the Table in Appendix I.

Provided further that in the case of a ship of Class I or Class II the owner of the ship is, on request, to be required to prove, by a test made in the presence of a Surveyor, that all the boats can be lowered in a time to be fixed by him. The conditions of this test shall be as follows:—

(a) the ship shall be upright and in smooth water;

(b) the time shall be the time required from the beginning of the removal of the boat-covers, or any other operation necessary to prepare the boats for lowering, until the last boat or person left is aloft;

(c) the number of men employed in the whole operation shall not exceed the total number of boat hands that will be carried on the vessel under normal service conditions;

(d) each boat, when being lowered, shall have on board at least two men, and its full equipment as required by these rules.

(2) The Governor General in Council may in his discretion impose as a condition of such exemption as aforesaid, in respect of a ship of Class II, III or IV launched before the 1st August 1929, that the boats carried shall be of a required capacity greater than the minimum capacity prescribed in rule 33.

(3) If it appears to the Governor General in Council, or the application of the owner of any adverse passenger ship that it is not practicable or reasonable in a particular case to require that previous lifeboats, made before the 1st August 1929 and carried on ships of which the boats were laid on or before that date, shall have the minimum freeboard specified in these rules, or the bottom and deck made in two thicknesses with teak or material between, the Governor General in Council may in his discretion dispense with full compliance with the rules in those respects subject to such conditions, if any, as the Governor General in Council may impose.

(4) If a small native passenger ship is unable to carry more than one boat, the Governor General in Council may in his discretion exempt that ship from carrying more than one, but whenever one boat only is carried there shall be proper provision to enable it to be placed readily in the water on either side of the ship.

43. (1) Boat's crew shall be carried in all ships to which these rules apply on the following scale, *namely*:—

One officer or superior woman rating and at least two other hands who shall be trained in the operations of launching and handling boats for each lifeboat required to be carried

under the provisions of these rules and in addition one officer and six hands to clear away the hoisting apparatus earned.

(2) A man capable of working the motor shall be assigned to each motor boat.

(3) The officer or rating placed in charge of each boat shall have a list of its crew and shall see that the men placed under his orders are acquainted with their several duties and stations.

(4) The duty of seeing that the boats and other life saving appliances are at all times ready for use shall be assigned to one or more officers.

49. From a date to be notified by the Governor General in Council each lifeboat shall be in charge of a minimum number of life boatmen holding certificates of efficiency issued under the authority of a competent authority. In order to obtain the certificate, the men must prove that they have been trained in all the operations connected with the launching of lifeboats and the use of same; that they are acquainted with the practical handling of the boats themselves; and further that they are capable of understanding and carrying the orders relative to lifeboat service.

50. (1) The master list shall assign duties to the different members of the crew in connection with:—

- (a) the launching of the boats attached to the ship;
- (b) the preparation of the other boats;
- (c) the equipment of the boats generally;
- (d) the closing of the bulkhead doors, etc.;
- (e) the mustering of the passengers.

It shall also assign to the members of the Stewards' Department their several duties in relation to the passengers at a time of emergency. These duties shall include:—

- (a) warning the passengers;
- (b) seeing that they are dressed and have put on their life-jackets in a proper manner;
- (c) assembling the passengers;
- (d) keeping order in the passages and on the stairways and generally controlling the movements of the passengers.

(2) The master list shall also specify definite alarm signals for calling all the crew to their boat and fire stations and shall give full particulars of the signals.

(3) Before the ship sails, the Master shall draw up and exhibit the master list and the proper authority shall be satisfied that the master list has been prepared for the ship and is posted in several parts of the ship and is particular in the crew's quarters.

53. (1) In all ships to which these rules apply, a boat drill and a watertight door drill shall be held as soon as possible after leaving the original port of departure and thereafter once a week during the voyage when practicable, at which a number of the male passengers (e.g., the single men) when this is practicable shall be mustered apart from the others in a convenient place whence they can be readily re-embarked in boats in swinging out boats or running up falls, etc., if required. Such drills shall be recorded in the official log.

(2) In case of native passenger ships engaged in the horse trade where the voyage is of less than one week's duration, one at least of such of these drills shall be for every seven days that the ship is at sea.

(3) The Surveyor shall be satisfied, in each case before the ship leaves port, that a system has been devised and communicated to each officer of the ship for securing an efficient working of the boats. In all cases a police system shall be organized to the satisfaction of the Surveyor so as to secure obedience to orders and proper control and guidance of all on board in times of emergency.

(4) In carrying out the boat and watertight door drills the crew will, when practicable, drill in their life-jackets and arrangements shall be made, when possible, for passengers to use the crew putting their life-jackets on. Entries in the official log shall state whether and when this has been done.

(5) In all native passenger ships which are required under these rules to carry two or more boats, an emergency boat shall be carried stowed out and ready for action every night except in the case of such classes of restricted horse-trade voyages as may be specially exempted from the requirements of this rule by the Governor General in Council.

53. Special boat-decks shall be kept entirely clear of passengers, and in the case of shade-decks, bridge-decks and poop-decks, which are utilized for carrying passengers as well as boats, a space sufficient for the working of the boats shall be roped off; and where boats stowed on a shade, bridge or poop-deck occupy half or more of the total breadth of the deck, the whole of the space abreast the boats shall be roped off and treated as a special boat-deck.

54. The equipment of boats and buoyant apparatus of any native passenger ship shall not be passed by the Surveyor as satisfying these rules unless the whole of it can be efficiently placed in the water in one hour.

PENALTY.

55. Whoever does any act in contravention of any of the provisions of these rules shall be punishable with fine which may extend to two hundred rupees.

APPENDIX I.

Table showing the minimum number of sets of davits, the minimum number of open boats, and the minimum aggregate capacity of lifeboats required to be provided in ships of Class I, Class II, Class III and Class IV.

Registered length of the ship in feet.	(A) Minimum number of sets of davits	(B) Minimum number of open boats, Class I.	(C) Minimum aggregate capacity of lifeboats in cubic feet for ships of Class I.	(D) Minimum aggregate capacity of lifeboats in cubic feet for ships of Class II, Class III and Class IV
200 and under 100 ..	2	0	500	400
100 ..	2	0	700	500

* When the length of a ship is under 200 feet, the Surveyor shall prescribe the minimum aggregate capacity of the lifeboats to be carried.

† When the length of a ship exceeds 400 feet, the Surveyor shall prescribe the additional number of sets of davits and the minimum aggregate capacity of the lifeboats to be carried.

No. 33-M I-129.—In exercise of the powers conferred by sub-section (7) of section 196 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), the Governor General in Council is pleased to make the following rules regarding the extinguishing appliances on native passenger ships, the most having been previously published as required by sub-section (5) of the said section, namely:—

RECAP.

1. (7) These rules may be called the Fire Extinguishing Appliances (Native Passenger Ships) Rules, 1929.

(3) They apply to native passenger ships, and shall come into force on the 1st day of August 1929 from which date rules XII to XVI of the rules published with the notification of the Government of India in the India Department of Finance and Commerce, No. 1384, dated the 14th March 1929, shall be cancelled.

Provided that these rules shall not apply, and rules XII to XVI of the rules published with the said notification shall continue to apply, to native passenger ships with regard to which a certificate of survey was granted before the 1st day of August 1929, under section 136 or section 144 of the Indian Merchant Shipping Act, 1923, while such certificate is in force.

2. In these rules "approved" means approved by the Governor General in Council.

SYSTEM AND METHOD STATES

3. (7) On every steam or motor ship of more than 4,000 tons gross tonnage, at least three, and on every other steam

System occupied by or motor ship at least two, steam or equivalent pumps shall be available

for the spaces occupied by passengers and crew; provided that more than two pumps shall not be required on ships whose keels were laid before the 1st August 1929. Each such pump shall be capable of providing a full supply of water, in accordance with the requirements specified in sub-rule (f) of rule 1, to two or more nozzles of water service pipes. The service pipes shall be of metal, with branches so arranged that the fire hoses may be coupled thereto, and two powerful jets of water may be rapidly and simultaneously brought to bear, by means of single lengths of hose from each branch, upon any part of each deck space occupied by passengers or crew, when the water-tight and fire doors are closed. Where the water service is on an exposed deck, the branches necessary to comply with the foregoing requirements shall, in the case of vessels whose keels are laid after the 1st August 1929, be fitted on both sides of the deck.

Provided that the main engine auxiliary pump shall be allowed to count as one of the pumps required to be available if it is so fitted as to be capable of serving the purpose of such pump.

Provided further that where the auxiliary pump is counted as one of the fire pumps and where the water service is on an exposed deck they shall be a hand on each side, one hand

being from the main engine tank and the other from the auxiliary pumps.

(2) Every steam or motor ship shall carry an efficient portable hand pump with nozzle and hose complete.

(3) Portable chemical fire extinguishers of an approved pattern shall be carried in every compartment wherein passengers and crew are accommodated. There shall be two extinguishers in each such compartment, and when passengers are carried in enclosed spaces above the upper deck, there shall be at least one extinguisher on each side of each space at intervals of not more than 60 feet.

4. On every steam or motor ship arrangements shall be made whereby two powerful jets of water may be

rapidly and simultaneously directed into any cargo compartment, and, save in the case of a steam or motor ship of less than 1,000 tons gross tonnage, satisfactory means shall also be provided whereby steam or other gas incapable of supporting combustion may be conveyed to each such compartment.

5. (7) Arrangements shall be made in steamships which use coal as fuel whereby two powerful jets of water may be

rapidly and simultaneously directed into any part of the coal bunker spaces, bunker rooms and machinery spaces.

(2) In steamships in which the main boilers are oil fired the following additional arrangements shall be made:—

(a) The fire braces in the machinery spaces shall be provided with additional connections suitable for spraying water on oil without undue disturbance of the surface.

(b) In each firing space there shall be placed a receptacle containing 10 cubic feet of sand, animal impregnated with soda, or other approved dry material; and means for distributing the same.

(c) In each boiler room, and in each of the machinery spaces in which a part of the oil fuel installation is situated, there shall be provided two approved portable chemical extinguishers of a type discharging froth or other approved medium suitable for quenching oil fires.

(d) Means shall be provided whereby froth may be rapidly discharged and distributed over the whole of the lower parts of any boiler room, or of any machinery space in which oil fuel units or oil-firing tanks may be situated. The quantity of froth which can be discharged should be amply sufficient to cover up to a depth of 6 inches the whole area of the plating formed in any lee compartment by the inner bottom plating, or by the shell plating of the vessel if there is no double bottom tank. If the engine and boiler rooms are not entirely separate, and fuel oil can drain from the boiler room bilges into the engine room, the combined engine and boiler rooms shall be treated as one compartment. Provided that if other effective means are available for excluding fire and the apparatus can be controlled from outside the

compartment in which fire may occur, the Governor General in Council may exempt from the requirements of this clause ships whose keels were laid before the 1st August 1925 on which it would not be reasonable to require the fitting of large deck installations.

(e) There shall further be provided one extinguisher of at least 20 gallons capacity in steamships having one boiler room, and two such extinguishers in steamships with more than one boiler room. These extinguishers shall be provided with hoses or reels suitable for reaching any part of the boiler rooms and spaces containing oil fuel pumping units. Provided that the Governor General in Council may permit the fitting of any other equally efficient apparatus in place of the 20 gallons extinguisher.

(f) All containers and valves by which they are operated shall be easily accessible and so placed that they will not readily be out of reach in case of fire.

(g) In vessels propelled by internal combustion engines there shall be provided in each of the machinery spaces, in addition to the requirements of sub-rule (f), fire extinguishers as follows:—

(a) At least one approved 10-gallon extinguisher, with the addition of one approved 2-gallon extinguisher for each 1,000 H.P. of the engines, provided that the total number of 2-gallon extinguishers so supplied shall not be less than two and need not exceed six.

(b) When a donkey boiler is situated in the machinery space there shall be provided in place of the 10-gallon extinguisher referred to in clause (a) an extinguisher of 30 gallons capacity, fitted with suitable hose attachments or other approved methods for distributing the foam.

SAILING SHIPS

6. (f) Sailing ships not exceeding 300 tons burden shall be provided with an efficient steam or hand pump of a suitable size and with sufficient hose to reach any part of the vessel. If the tonnage exceeds 300 tons, two such pumps of adequate size together with sufficient hose shall be provided to enable two powerful jets of water to be brought to bear rapidly and simultaneously on any part of the ship.

(g) In passenger sailing ships chemical fire extinguishers shall be provided on the scale specified in sub-rule (3) of rule 3.

GENERAL REQUIREMENTS.

1. (1) In steam and motor ships each of the steam or equivalent pumps shall be capable

of supplying simultaneously two powerful jets of water for use in any part of the vessel. The pumps shall be worked by steam or by some other equally efficient motive power, and shall always be available for immediate use at all reasonable times when the vessel is in commission.

(2) In sailing ships, the steam pump required for the foaming apparatus shall be adapted for use as a fire pump. Each hand pump shall be at least double acting and shall

have not less than one cubic inch lifting capacity of pump chamber for every 20 tons gross of the vessel, and a total lifting capacity not less in any case than 60 cubic inches; provided that, subject to the capacity of such single pump being not less than 60 cubic inches, the total capacity required may be obtained by fitting two or more pumps. Each hand pump shall be of the fly-wheel type and permanently fixed in position, and shall have round metric pipes, other than lead fitted, with cocks on the ship's side. Fire pumps shall always be available for immediate use at all reasonable times when the vessel is in commission.

(3) All steam or equivalent pumps shall be provided with effective escape valves suitably adjusted and so placed as to prevent excessive pressure in any part of the water service system.

2. The main water service pipes shall be made of wrought material, and if of iron or steel, shall, in the case of vessels whose keels were laid after the 1st August 1925, be galvanized. They shall be sufficiently large in diameter for the adequate supply of water to the fire hoses which shall be secured to them for simultaneous operation. The branches shall be so placed that the fire hose may be conveniently coupled to them, and cocks or valves shall be fitted where required to admit of any hose being removed, if desired, while the pumps are at work.

3. (1) The fire hose shall be of leather, seamless hose, six inches diameter, of best-class quality,

or other approved material. They shall be provided with suitable metal unions and connectors, and with goose-neck connections where necessary.

(2) A sufficient number of fire hoses with attachments and connectors shall be suitably distributed about different decks in the ship so as to be readily available for rapid use in any space occupied by passengers or crew, and not less than three hoses and attachments shall be provided in any vessel.

(3) The fire hoses and the connectors, and other apparatus referred to in sub-rules (1) and (2), together with coupling when and if required, shall be kept ready for use in conspicuous positions near the water service hydrants or connections. They shall be used only for the purpose of extinguishing fires or for testing the fire extinguishing apparatus at fire drills and surveys, and not for washing decks.

3b. Where provision is made for the installation of steam or gas into the cargo spaces other than into cargo and boiler rooms for the extinguishing purposes, the necessary pipes for conveying the steam or gas to bulk or other compartments shall be provided with controlling valves, or cocks readily accessible from the deck and so placed as to indicate clearly the compartments in which the pipes are respectively led. Suitable

provisions shall be made for locking these valves or cocks so as to prevent inadvertent admission of the steam or gas in any compartment. If any pipe is led to a space to which passengers have access, it shall be furnished with an additional stop valve or cock also capable of being locked. Provided that the Governor-General in Council may permit the substitution of any other equally efficient safety device giving the requisite security from danger.

11. (1) A sufficient number of approved fixed fire extinguishers discharging water shall be provided in accordance with the requirements of rules 3 and 5. For ordinary purposes not specifically referred to in these rules, the capacity of portable extinguishers shall be not more than three imperial gallons, and not less than two imperial gallons, provided the Governor-General in Council may, in his discretion, permit the use of an extinguisher of less than two gallons capacity in special circumstances.

(2) An approved type of portable extinguisher discharging a medium other than water may in the case of not more than 25 per cent. of the total number of extinguishers required be substituted for the ordinary water-discharging extinguisher.

(3) The portable hand fixed fire extinguishers (apart from those supplied in boiler rooms, etc., specially for use in connection with oil fuel) shall not be of more than two types in any one ship.

(4) All extinguishers, whether portable or otherwise, shall be placed in positions where they are readily accessible.

12. At least two smoke helmets and two safety lamps of approved type shall be included in the fire extinguishing equipment of every vessel and the helmets shall be stored separately. The members of the crew shall be practised regularly in their use.

13. The necessary emergency fire appliances (such as knives, axes and crow-bars), shall be kept in a place readily accessible at all times from different parts of the ship.

14. Fire drill shall be observed at least once a week on board all vessels and during such drill all fire appliances shall be put into use and the list referred to in the Log Book. The great utility of woollen or asbestos blankets for smothering small fires shall always be impressed on all persons taking part in a fire drill.

15. (1) The fire apparatus shall be placed under the special charge of one of the principal officers of the ship and of the ship's carpenter, who shall both be held responsible that the apparatus is kept in a state fit for immediate use. As soon as possible after leaving port, the officers

and crew shall be divided into parties and assigned to stations in case of fire.

(2) A continuous patrol system shall be organised so that any outbreak of fire may be promptly detected.

16. (1) The cargo of every ship shall, before she leaves port, be properly stowed away, and the decks shall be cleared of any loose straw, hay and other inflammable material. Any goods which are dangerous by reason of their inflammability or liability to explosion shall be stowed, subject to the provisions of any law or rules in force, in such manner as to safeguard the ship from danger of fire or explosion. The tools of water men carried on the ship shall be stowed before leaving.

(2) Before a ship leaves port, every passenger shall deliver up any lighter matches, gunpowder or other inflammable articles in his possession.

17. Naked lights shall not be used in the holds or store rooms or between decks, except under trustworthy supervision. No pipes shall need to be led with a naked light. Candles or lamps containing spirit shall not be opened in the hold but shall be hoisted on deck for the purpose.

18. In the case of a small vessel under 200 feet in length when it is shown to be unreasonable to require full compliance with any of the provisions of these rules, such relaxation shall be granted as the Governor-General in Council may, having regard to all the circumstances of the case, direct.

PENALTIES.

19. Whoever does any act in contravention of any of the provisions of these rules shall be punishable with fine which may extend to two hundred rupees.

No. 53-M.L./29.—In exercise of the powers conferred by sub-section (1) of section 191 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), the Governor-General in Council is pleased to make the following rules regarding signals of distress on native passenger ships, the same having been previously published as required by sub-section (2) of the said section, to-wit:—

NOTES.

1. (1) These rules may be called the Signals of Distress (Native Passenger Ships) Rules, 1929.

(2) They apply to native passenger ships, and shall come into force on the 1st day of August 1929 from which date rule XVII of the rules published with the notification of the Government of India to the late Department of Finance and Commerce, No. 1354, dated the 10th March 1923, shall be cancelled.

Provided that these rules shall not apply, and rule XVII of the rules published with the said notification shall continue to apply,

to native passenger ships with regard to which a certificate of survey was granted before the 1st day of August 1923, under section 138 or section 144 of the Indian Merchant Shipping Act, 1923, while such certificate is in force.

2. In these rules—

(1) "Approved" means approved by the Governor-General in Council.

(2) "Surveyor" means a Surveyor appointed under section 129 of the Indian Merchant Shipping Act, 1923.

3. Any of the following commonly recognized night signals of distress may be used either together or separately:—

(1) A gun or other explosive signal fired at intervals of about a minute.

(2) Flashes on the vessel (as from a turning or an all round).

(3) Rockets or shells, throwing stars of any colour or description, fired one at a time at short intervals.

(4) A continuous sounding with any fog signal apparatus.

4. All ships shall be provided with the means of making signals of distress as follows:—

(1) Means of making signals of distress as specified in rules 5 to 8 or, in lieu thereof, with such other means of making signals of distress as have been previously approved.

(2) One gun at least 3½ inches in the bore, or one mortar at least 5½ inches in the bore, shall be carried on all ships, with 24 charges of ammunition in the case of foreign-going ships, and 12 charges in the case of home-trade ships.

(3) Each charge shall contain 10 oz. of powder in a double bag. The necessary requisites for firing the gun, namely, counters, springs, wads, priming wires, friction tubes, powder flask, with fine powder for priming and means for firing and withdrawing the charges, shall also be provided.

(4) Approved rocket distress signals and sound signal rockets may be carried in lieu of a gun, provided that the number of signals so carried shall be equal to the number of charges of ammunition required under sub-rule (1).

5. Two deck flares, self-igniting in water, shall be provided to every ship. Deck flares shall be capable of burning brightly for at least 40 minutes. Full instructions for use shall be attached to each flare, and suitable receptacles for containing the water required for their combustion shall be provided, efficient means being adopted for ensuring free flow of water to the bottom of the light.

6. (1) Twelve rockets or shells, throwing stars of any colour or description, shall be supplied, each rocket containing 10 oz. of composition.

(2) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(3) The rockets or shells, throwing stars of any colour or description, shall be supplied, each rocket containing 10 oz. of composition.

(4) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(5) The rockets or shells, throwing stars of any colour or description, shall be supplied, each rocket containing 10 oz. of composition.

(6) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(7) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(8) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(9) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(10) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(11) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(12) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(13) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(14) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(15) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(16) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(17) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(18) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(19) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(20) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(21) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(22) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(23) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(24) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(25) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(26) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(27) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(28) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(29) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(30) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(31) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(32) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(33) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(34) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(35) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(36) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(37) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(38) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(39) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(40) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(41) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(42) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(43) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(44) Approved rocket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (1).

(3) any other description of pyrotechnic signals.

(4) Such separate receptacles shall not be made easily by divisions or partitions in a cap-based or locker or chest, but each such receptacle shall be a separate magazine, carefully appropriated to the keeping of explosives of the kind in question. Charges of powder, if carried, shall be contained in flannel bags, and the magazine in which they are kept shall be made of copper and strongly constructed. To prevent injury to the rockets and other signals, the receptacles shall either be internally divided in such a way that the signals can be stored vertically, or they shall be of roughly the same length as the signals, but sufficiently narrow to prevent the signals being turned round. The lids shall be secured by hinges or brass screws so as to permit of an inspection being made without injury to the case. The receptacles shall, where possible, be kept in a house on deck, and stowed or ranged as far apart as circumstances will permit, so that in the event of spontaneous combustion, or of risk of any sort arising, any of the same may be at once removed. Afloat the rocket signals are supplied by the manufacturers in wooden boxes with a tin inside containing the friction tubes, no other receptacle shall be required for the latter.

(5) No article of an explosive or highly inflammable character shall be carried in any room or place in which any receptacles containing distress signals is deposited.

11. In the case of a small vessel under 200 feet in length when it is shown to be unreasonable to require full compliance with any of the provisions of these rules, such relaxation shall be granted as the Governor General in Council may, having regard to all the circumstances of the case, direct.

PENALTIES.

12. Whoever does any act in contravention of any of the provisions of these rules shall be punishable with fine which may extend to two hundred rupees.

No. M.L.E.139.—In exercise of the powers conferred by sub-section (1) of section 101 of the Indian Merchant Shipping Act, 1920 (XXI of 1920), the Governor General in Council is pleased to direct that the following further amendments shall, with effect from the 1st August 1929, be made in the rules published with the notification of the Government of India in the late Department of Marine and Commerce, No. 1554, dated the 19th March 1920, the same having been previously published as required by sub-section (5) of the said section.

Provided that these amendments shall not apply, and rules I, IV, V, VI and XIX of the rules published with the said notification shall continue to apply, to motor passenger ships with regard to which a certificate of survey was granted before the 1st day of August 1929, under section 196 or section 144 of the

Indian Merchant Shipping Act, 1920, while such certificate is in force.

AMENDMENTS.

1. After sub-rule (3) of rule I of the said rules the following sub-rule shall be inserted, namely:—

"(4) In every open deck on any such ship there shall be provided efficient means for the regular supply of fresh drinking water to the deck passengers, suitably distributed forward and aft.

The minimum number of supply stations to be required shall be in accordance with the following scale:—

Registered length of ship.	Minimum number of fresh water supply stations.
Under 100 feet	2
100 and under 200 feet ...	3
200 and under 300 feet ...	4
300 and under 400 feet ...	5
400 and above	6

2. For rules IV, V and VI of the said rules the following rules shall be substituted, namely:—

"IV. (1) Every such ship shall be fitted with not less than two ladders for the exclusive use of deck passengers and one additional ladder shall be required for every fifty or part of fifty deck passengers in excess of one hundred which according to 'Certificate A' the ship is certified to be capable of carrying:

Provided that no such ship shall be required to be fitted with more than sixty ladders for the use of deck passengers and that in the case of ships certified for the carriage of deck passengers under the Indian Merchant Shipping Act, 1920, prior to the 1st August 1929, the provision of forty ladders shall suffice.

Provided further that in any ship whose voyages between certain ports would, in ordinary circumstances, not exceed twenty-four hours, half the scale of ladders prescribed in this rule, with a minimum of two, shall suffice.

(2) No ladders for the use of deck passengers shall be allowed in the between-decks.

(3) The number of ladders that shall be permitted shall be not less than that prescribed in sub-rule (2) for the maximum number of deck passengers which may be carried in the fair season in the kind of voyages on which the ship is usually employed.

(4) The cover of the ship shall not, while deck passengers are on board, be allowed to use the ladders set apart for such passengers but shall be provided with a separate set of ladders.

(5) The ladders with which such ship is required to be fitted for the use of deck passengers shall be divided into two portions, one of which shall be set apart for the exclusive use of females. The entrances to ladders so set apart shall be entirely different.

(6) The ladders for males and females shall be indicated by means of a figure or painting of a man and a woman respectively,

(1) Where structural conditions permit, the latrine shall be in a convenient and accessible place, back forward and aft, on every deck above the between-decks other than the poop and bridge decks, on which deck passengers are permitted to be carried under "Certificate A", and in cases where latrines are fitted between the upper (weather) deck and the shelter or dining deck they shall be separately ventilated and shall be effectively shut off so that no effluvia from them can escape into a passenger space.

(2) Every latrine or, where the latrine are in batteries, every battery of latrines, shall be provided with a sufficient supply of water by means of a tap, for purposes of ablution.

(3) Every latrine rest shall be contained in a separate compartment which shall have a door which can be secured by a lock or bolt from the outside. The platform and trough shall be as low as possible, and the two sides of the compartment shall be sufficiently high to give privacy from the adjoining compartment.

(4) Every latrine shall be fitted with an automatic intermittent flushing device and be provided with facilities for flushing whether the ship is at rest or moving, provided that, in ships certified for the carriage of deck passengers under the Indian Merchant Shipping Act, 1923, prior to the 1st August 1923, where the latrine are flushed by a constant flow of water no alteration in the arrangements shall be required so long as it remains efficient and to the Surveyor's satisfaction.

(11) No ship coming under survey for the first time on or after the 1st August 1923 shall be permitted to be fitted with latrines of the pan and hand-bash type for the use of deck passengers.

(12) A special staff of sweepers shall be employed on every such ship at the rate of one sweeper for every twelve latrines with which the ship is required to be provided under sub-rule (1) of this rule.

Note.—"Surveyor" means a Surveyor appointed under section 129 of the Indian Merchant Shipping Act, 1923.

V. (1) Every such ship shall be provided with and have available for the use of deck passengers not less than two places for washing sufficiently screened from the public view, of which places at least one shall be set apart for the exclusive use of females. The washing place shall be so situated that it will not be necessary to enter the lower compartments of the latrines in order to reach them.

(2) A sufficient number of hand pumps or taps of the automatic shut off type shall be provided in the washing places for supplying sea or fresh water for purposes of ablution.

(3) The crew of the ship shall not, while deck passengers are on board, be allowed to use the washing places set apart for such passengers but shall be provided with separate washing places.

VI. (1) When cable are carried on the open deck, and are not under cover, the space occupied by them shall be effectively shut off from

the passenger space by bulkheads, wooden partitions or otherwise. The partitions need not be close; but efficient wash boards shall be fitted to prevent the dung and urine of the cattle from getting on to the passenger space.

(2) When cattle are carried under cover on the same level deck as passengers, they shall be separated from the passenger space by a movable close bulkhead running athwartships across the deck and extending from the deck to the ceiling above, or by some other efficient means.

(3) When cattle are carried either in the between-decks or holds, the passenger space shall be effectively shut off from the cattle space, and separately ventilated so that no effluvia from the cattle space can escape into the passenger space.

3. To sub-rule 2 of the rule XIX of the model rules the following shall be added, namely:—
"and shall also state the number of deck passengers for whom space remains available."

4. After rule XX of the said rules the following rule shall be inserted, namely:—

XXI. (1) Every space included in the space treated as available for passengers on a native passenger ship shall be provided with efficient lighting and ventilation and with means of access suitable to all weather conditions.

(2) The number of passengers to be accommodated in any such space shall be clearly marked thereon, and the space allotted to passengers who are by contract entitled to be accommodated with space in excess of the minimum required by or under the Act shall be clearly separated from every other such space.

(3) Effective means shall be provided for fighting fires and weather decks in emergency.

5. 55-XI. (29).—In exercise of the powers conferred by section 102 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), hereinafter referred to as the Act, and in pursuance of the notification of the Government of India in the his Department of Finance and Commerce, No. 1336, dated the 14th March 1923, the Governor General in Council is pleased to prescribe the number of superficial and of cubic feet of space to be available for native passengers in native passenger ships in accordance with the Order hereunder set forth, and to direct that the said Order shall conform to the requirements on that subject of sub-sections (7) and (8) of section 170 and of section 179 of the Act:—

ORDER.

(1) If in any native passenger ship and for any voyage to which the provisions in the Act relating to native passenger ships apply any passenger is by contract entitled to be accommodated with space in excess of the minimum which section 178 (2) of the Act or paragraph 3, 4, 5, 6, 7, 8, 9 or 10 of this Order requires the ship to contain for each passenger, the said ship shall contain for each such passenger the

space to which he is so entitled, and in addition thereto for every other passenger the space required by section 170 (2) of the Act or the applicable paragraph or paragraphs of this Order in the case may be:

(2) If in any native passenger ship and the way voyage to which the provisions of the Act relating to native passenger ships apply the height between decks is less than six feet, the cubic space required for every passenger under section 170 (2) of the Act or the applicable paragraph or paragraphs of this Order shall be increased by one-fourth:

Provided that no deck where the height between decks is less than 5 feet 6 inches shall be measured for passengers:

(3) For seasons of fair weather, a native passenger ship performing a short voyage in which, in ordinary circumstances, she will not be absent two hours continuously out of port, returning from pilot station to pilot station, shall contain in the upper between-decks at least eight superficial feet and forty-eight cubic feet of space, available for each upper between-decks passenger, and on the upper (weather) deck at least four superficial feet available for each upper between-decks passenger and eight superficial feet available for each upper (weather) deck passenger:

Provided that for native passenger ships performing voyages on the routes specified in Schedule I to this Order, seven and a half and forty-five shall be substituted for eight and forty-eight in this paragraph:

(4) For seasons of fair weather, a native passenger ship performing a short voyage in which, in ordinary circumstances, she will be not less than seventy-two hours continuously out of port, returning from pilot station to pilot station, shall contain in the upper between-decks at least nine superficial feet and fifty-four cubic feet of space available for each upper between-decks passenger, and on the upper (weather) deck at least four superficial feet available for each upper between-decks passenger and nine superficial feet available for each upper (weather) deck passenger:

(5) For seasons of foul weather, a native passenger ship propelled by steam, or partly by steam and partly by sails, and performing a short voyage shall contain in the upper between-decks at least ten superficial feet and sixty cubic feet of space available for each upper between-decks passenger, and on the upper (weather) deck at least four superficial feet available for each upper between-decks passenger and ten superficial feet available for each upper (weather) deck passenger:

Provided that for native passenger ships performing voyages on the routes specified in Schedule I to this Order, nine and a half and fifty-seven shall be substituted for ten and sixty in this paragraph:

(6) In every active passenger ship which proceeds on a long voyage in which the upper (weather) deck shall be left unencumbered so as to allow at least six superficial feet thereof for each passenger proceeding on the voyage:

(7) A native passenger ship propelled by sails and performing a long voyage shall, subject to the provisions of this Order, contain in the upper between-decks at least twelve superficial feet and seventy-two cubic feet of space available for every upper between-decks passenger:

(8) A native passenger ship propelled by steam, or partly by steam and partly by sails, and performing a long voyage shall, subject to the provisions of this Order, contain in the upper between-decks at least ten superficial feet and sixty cubic feet of space available for every upper between-decks passenger:

(9) Every active passenger ship which carries native passengers on two between-decks, shall, subject to the provisions of this Order, contain space in the lower between-decks and upper (weather) deck for each lower between-decks passenger in accordance with the appended table: provided that no deck lower than that next below the lead line shall be measured for passengers and no passenger shall be carried in any lower between-decks space when the height of such space is less than six feet from deck to deck:

TABLE.

Short Voyages.

Fair weather.		Upper (weather) deck.		Foul weather.		Upper (weather) deck.	
Lower between-decks.		Upper (weather) deck.		Lower between-decks.		Upper (weather) deck.	
sft.	cft.	sft.	cft.	sft.	cft.	sft.	cft.
12	72	4	15	10	60	4	15

Long Voyages.

Lower between-decks.		Upper (weather) deck.	
sft.	cft.	sft.	cft.
10	60	4	15

(10) The description of a passenger otherwise than as an upper or lower between-decks passenger shall not affect the obligation to render available for such passenger on a long voyage either the amount of space in the upper between-decks required by paragraph 7 or paragraph 8 or the case may be to be available for as upper between-decks passenger or at the option of the master the amount of space in the lower between-decks required by paragraph 9 to be available for a lower between-decks passenger:

(11) For the purposes of this Order—

(a) enclosed spaces in a superstructure shall be treated as available for upper between-decks passengers when the means of access is direct and not through another passenger space. When this condition as to access is not fulfilled, the space shall be measured as prescribed for lower between-decks;

(b) space on a deck in way of side openings normally open to the air on both sides of the vessel shall, if it is ventilated to the satisfaction of the Surveyor, be treated as available for passengers as the upper (weather) deck or upper between-decks at the option of the owner, provided that such space shall not be treated as space on the upper between-decks, unless it is fitted to the satisfaction of the Surveyor with efficient means for closing the side openings in bad weather;

(c) in the case of long voyages only, half the area of any hatchway containing more than 120 sq. ft. of superficial space may, if the Surveyor is satisfied that the hatch beams and coverings are of sufficient strength, be treated as space available for passengers on the deck as which the hatchway is situated;

(d) space on the upper (weather) deck occupied by davport apparatus may, if the Surveyor is satisfied that it affords suitable accommodation, be treated as available for passengers on that deck;

(e) if a space which would otherwise be treated as available for passengers in the upper between-decks has no access save through another space so treated, it shall be treated as available for passengers on the lower between-decks;

NOTE.—"Surveyor" means a Surveyor appointed under section 129 of the Act.

(2) The provisions contained in this Order shall not apply to ships plying in either direction on the routes mentioned in Schedule 2 to this Order;

(3) In cases of congestion at a particular port the Port Officer may, when weather conditions are favourable, permit a native passenger ship terminating her voyage within twenty-four hours of her sailing from that port, to carry passengers during a foul season at four times the normal rate;

(4) This Order shall come into force on the 1st day of August 1929.

Schedule 1.

Bombay—Basra	Aden—Perth.
Calcutta	Colo.
Yamoubo	Perth.
Yamoubo	Perth.
Tadris—Calcutta	Chittagong—Basra.
Yamoubo—Calcutta	Colo's Basin.

Schedule 2.

Between-decks—Tadris—Basra.

Voyages during the foul season not exceeding 24 hours between termini of ports which may be declared by the Local Government to be Foul or Special Voyages.

No. 56-M.I. (3)/29.—The following draft of a Notification, which it is proposed to issue in exercise of the power conferred by section 191 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), read with section 21 of the General Clauses Act, 1897 (X of 1897), is published, as required by sub-section (3) of section 191 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration on or after the 1st June 1929.

Any objection or suggestion which may be received from any person with respect to the draft before the said date will be considered by the Governor-General in Council.

DRAFT NOTIFICATION.

In exercise of the power conferred by sub-section (3) of section 191 of the Indian Merchant Shipping Act, 1923 (XXI of 1923),

read with section 21 of the General Clauses Act, 1897 (X of 1897), the Governor-General in Council is pleased to make the Notification of the Government of India in the Department of Finance and Commerce, No. 906, dated the 15th February 1929.

No. 56-M.I. (3)/29.—The following draft of certain further amendments to the rules promulgated with the Notification of the Government of India in the Department of Finance and Commerce, No. 906, dated the 15th March 1929, which it is proposed to make in exercise of the power conferred by sub-section (3) of section 191 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), is published, as required by sub-section (3) of the said section, for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration on or after the 1st June 1929.

Any objection or suggestion which may be received from any person with respect to the draft before the said date will be considered by the Governor-General in Council.

DRAFT AMENDMENTS.

In the preamble to the said notification—

(1) after the words "the following rules" the words "for all native passenger ships whenever sailing" shall be inserted, and

(2) the word shall be omitted.

Port St. George, May 15, 1929.

[R.O. No. 25, 1929, (M.I. 25/29).]

No. 56.—In exercise of the power conferred by section (3) of sub-section (1) of section 4 of the Indian Ports Act, 1908 (XV of 1908), as amended by the Indian Ports Amendment Act, 1919 (VI of 1919), the Governor in Council withdraws the provisions of the said Act from the Port of Surinagar and Persepahan in the district of West Godavari in which the said Act is now in force.

H. A. WATSON,
Secretary to Government.

LAW DEPARTMENT. (General.)

Shah Ahmad Sahib Bahadur, Inspending Tehsil—
Karwar.

1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034, 2035, 2036, 2037, 2038, 2039, 2040, 2041, 2042, 2043, 2044, 2045, 2046, 2047, 2048, 2049, 2050, 2051, 2052, 2053, 2054, 2055, 2056, 2057, 2058, 2059, 2060, 2061, 2062, 2063, 2064, 2065, 2066, 2067, 2068, 2069, 2070, 2071, 2072, 2073, 2074, 2075, 2076, 2077, 2078, 2079, 2080, 2081, 2082, 2083, 2084, 2085, 2086, 2087, 2088, 2089, 2090, 2091, 2092, 2093, 2094, 2095, 2096, 2097, 2098, 2099, 2100, 2101, 2102, 2103, 2104, 2105, 2106, 2107, 2108, 2109, 2110, 2111, 2112, 2113, 2114, 2115, 2116, 2117, 2118, 2119, 2120, 2121, 2122, 2123, 2124, 2125, 2126, 2127, 2128, 2129, 2130, 2131, 2132, 2133, 2134, 2135, 2136, 2137, 2138, 2139, 2140, 2141, 2142, 2143, 2144, 2145, 2146, 2147, 2148, 2149, 2150, 2151, 2152, 2153, 2154, 2155, 2156, 2157, 2158, 2159, 2160, 2161, 2162, 2163, 2164, 2165, 2166, 2167, 2168, 2169, 2170, 2171, 2172, 2173, 2174, 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 2184, 2185, 2186, 2187, 2188, 2189, 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2199, 2200, 2201, 2202, 2203, 2204, 2205, 2206, 2207, 2208, 2209, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2219, 2220, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2240, 2241, 2242, 2243, 2244, 2245, 2246, 2247, 2248, 2249, 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 2259, 2260, 2261, 2262, 2263, 2264, 2265, 2266, 2267, 2268, 2269, 2270, 2271, 2272, 2273, 2274, 2275, 2276, 2277, 2278, 2279, 2280, 2281, 2282, 2283, 2284, 2285, 2286, 2287, 2288, 2289, 2290, 2291, 2292, 2293, 2294, 2295, 2296, 2297, 2298, 2299, 2300, 2301, 2302, 2303, 2304, 2305, 2306, 2307, 2308, 2309, 2310, 2311, 2312, 2313, 2314, 2315, 2316, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2328, 2329, 2330, 2331, 2332, 2333, 2334, 2335, 2336, 2337, 2338, 2339, 2340, 2341, 2342, 2343, 2344, 2345, 2346, 2347, 2348, 2349, 2350, 2351, 2352, 2353, 2354, 2355, 2356, 2357, 2358, 2359, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2369, 2370, 2371, 2372, 2373, 2374, 2375, 2376, 2377, 2378, 2379, 2380, 2381, 2382, 2383, 2384, 2385, 2386, 2387, 2388, 2389, 2390, 2391, 2392, 2393, 2394, 2395, 2396, 2397, 2398, 2399, 2400, 2401, 2402, 2403, 2404, 2405, 2406, 2407, 2408, 2409, 2410, 2411, 2412, 2413, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, 2434, 2435, 2436, 2437, 2438, 2439, 2440, 2441, 2442, 2443, 2444, 2445, 2446, 2447, 2448, 2449, 2450, 2451, 2452, 2453, 2454, 2455, 2456, 2457, 2458, 2459, 2460, 2461, 2462, 2463, 2464, 2465, 2466, 2467, 2468, 2469, 2470, 2471, 2472, 2473, 2474, 2475, 2476, 2477, 2478, 2479, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2521, 2522, 2523, 2524, 2525, 2526, 2527, 2528, 2529, 2530, 2531, 2532, 2533, 2534, 2535, 2536, 2537, 2538, 2539, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568, 2569, 2570, 2571, 2572, 2573, 2574, 2575, 2576, 2577, 2578, 2579, 2580, 2581, 2582, 2583, 2584, 2585, 2586, 2587, 2588, 2589, 2590, 2591, 2592, 2593, 2594, 2595, 2596, 2597, 2598, 2599, 2600, 2601, 2602, 2603, 2604, 2605, 2606, 2607, 2608, 2609, 2610, 2611, 2612, 2613, 2614, 2615, 2616, 2617, 2618, 2619, 2620, 2621, 2622, 2623, 2624, 2625, 2626, 2627, 2628, 2629, 2630, 2631, 2632, 2633, 2634, 2635, 2636, 2637, 2638, 2639, 2640, 2641, 2642, 2643, 2644, 2645, 2646, 2647, 2648, 2649, 2650, 2651, 2652, 2653, 2654, 2655, 2656, 2657, 2658, 2659, 2660, 2661, 2662, 2663, 2664, 2665, 2666, 2667, 2668, 2669, 2670, 2671, 2672, 2673, 2674, 2675, 2676, 2677, 2678, 2679, 2680, 26

(a) for those (c) the following clause shall be substituted, namely—

"(c) 'Motor cycle' means a two, three or four wheeled motor vehicle fitted with a seat or seats and with or without a side car but without a carriage body and weighing not more than 5 cwt."

3. For the first sentence of Rule 1 of the said rules the following sentence shall be substituted, namely—

"Wherever the registered owner of a motor vehicle changes his address he shall, within seven days thereafter, report the new address to the authority who registered the vehicle."

4. For item 12 of the said rules the following rule shall be substituted, namely—

"12. Whenever a motor vehicle is in a public place, the number assigned thereto by the registering authority, provided by the distinguishing letter or letters denoting that authority, shall be shown in a prominent position both at the front and rear of the motor vehicle. The letters and numbers shall be shown in black on a white ground in the case of a motor vehicle but on a yellow ground in the case of a motor bus, and in white on a black ground in the case of any other vehicle. In the case of a motor cycle, the front number plate shall have duplicate figures and shall be fixed to the front of the cycle, so that, from whichever side the vehicle is viewed, the letters or figures on one or other face of the plate may be easily distinguishable.

The said letters and figures shall, in the case of a motor vehicle other than a motor cycle, be at least 1½ inches high, and in the case of a motor cycle at least ½ inch high and shall be at least ½ inch of an inch broad in every part."

Provided that in the case of the distinguishing letter 'H' or 'C' such letter shall, in the case of a motor

vehicle other than a motor cycle, be at least 2 inches high and in the case of a motor cycle at least 1½ inches high.

The space taken up by each figure contained in each number (except the figure 1) and by each such letter (except the letters 1 and 2) shall, in the case of a motor vehicle other than a motor cycle, be at least ½ inch and in the case of a motor cycle at least ¼ inch.

The space between adjoining figures and letters shall be at least 1 inch and between groups of figures and groups of letters at least ½ inch. A space of 4 inch shall be left at the top, bottom and sides of the plate."

4. In Rule 14 of the said rules, at the end of and before (c) the following words shall be added, namely—

"In the case of a motor vehicle fitted with four wheels but not a motor bus, it is sufficient if the four letters can be spotted by alternate mechanism."

5. For the second paragraph of Rule 18A of the said rules the following paragraph shall be substituted, namely—

"On the front of a license to an applicant applicant or to an applicant who drives for remuneration or for hire, his 1-4 hand finger impressions shall be taken at the application and on the license granted."

6. In Rule 21 of the said rules—

(a) at the end of sub-rule (1) the following sentence shall be added, namely—

"The fact of using the ability of a driver to drive a particular make of heavy motor vehicle or a particular type of motor bus shall be 2s. 5th and

(b) in clause (c) of the said rule (3) the following proviso shall be added, namely—

"Provided that nothing in this clause shall be deemed to authorize the holder of a temporary

permit to drive a motor vehicle while it is in a place for hire."

7. In clause (c) of Rule 22 of the said rules, at the end of the first sentence the following words shall be added, namely—

"Provided that a license which is notified in any way shall be deemed to be valid."

8. Clause (b) of sub-rule (2) of Rule 30 (a) of the said rules shall be omitted and clause (i) of the same sub-rule shall be substituted as such rule (3).

9. After rule 23 (a) of the said rules the following rule shall be inserted, namely—

"30. (a) No owner or driver of a motor vehicle let or plying for hire (other than a motor bus) shall—

(a) use sounding or abusive language or gestures to any person getting into or out of the vehicle in question or to the driver or conductor of any other vehicle let or plying for hire; or

(b) wilfully obstruct or hinder the driver of any other motor vehicle in taking up or sitting down any person into or from such other vehicle; or

(c) wrongfully prevent or obstruct in progress, the driver of any other motor vehicle from being hired; or

(d) before he has been charged by the Motor Officer from the place; or

(e) stand elsewhere than at some stand or other place appointed for the purpose of being hired, in the vicinity any public street or road, or place."

10. In rule 30 I of the said rules, for the words and figures "Quintessence 2 H, 3, 4, 4 A, 5 and 5th" the words and figures "Quintessence 2 H, 3, 4, 4 A, 5, 5 A, 5th and 5th" shall be substituted.

11. After rule 30 2 of the said rules the following rule shall be inserted, namely—

"30 E. No owner, driver or conductor of a motor bus shall—

(a) use sounding or abusive language or gestures to any person getting into or out of the vehicle in question or to the driver or conductor of any other vehicle let or plying for hire; or

(b) wilfully obstruct or hinder the driver of any other motor vehicle in taking up or sitting down any person into or from such other vehicle."

12. In rule 30 of the said rules, for the word and figures "Rs. 32" the word and figures "Rs. 75" shall be substituted.

13. In Form D appended to the said rules—

(a) the entry 24.4 the following entry shall be substituted, namely—

"E. Signatures for finger impressions of applicants or of applicants who drive for remuneration or for hire."

(To be taken in the presence of the Licensing authority)

Left thumb	1	2	3	4

(b) for the word "Signatures" occurring at the end of the words "Negative or mark" shall be substituted—

14. In Form F, appended to the said rules, for the words and brackets "Signatures" for the signatures of license applicants and for the left thumb impressions of license applicants and for the signatures of an endorsement on the license to be attached" the words

Special Constituencies—Landholders' Constituencies

14. A person shall be qualified as an elector for a Landholders' constituency who is a member, joint or co-owner and entitled to the ownership for not less than 152 days in the previous year and who—

(a) possesses an annual income, calculated as provided in paragraph 15, of not less than Rs. 1,000; or

(b) is registered as the owner of land situated within the Presidency of Madras in which the assessment is not less than Rs. 1,000; or

(c) receives from Government a minimum allowance the annual amount of which is not less than Rs. 5,000.

15. For the purpose of paragraph 14 of this part, the annual income of a person shall be taken to be the annual revenue upon which the land is calculated under the Madras Land Revenue Act, 1920, excluding the paid, unpaid, or pending or similar charges payable by him to Government.

16. In calculating annual income and assessment for the purpose of paragraph 14 of this part—

(a) income derived from any estate shall not be reckoned along with income derived from any land other than an estate, but it may be reckoned along with a minimum allowance;

(b) it is no case shall income derived from a person as an estate which is subsequently registered in the office of a Collector be taken into account;

(c) assessments paid on more than one parcel of land may be reckoned together; provided that, in the case of land referred to in paragraphs 15 and 16 of this part, the assessment paid on one shall not be added to any assessment paid on other land unless the holder of the latter has been nominated as a qualified under these paragraphs to represent the joint-holders or family in respect of the former land.

17. For the purpose of paragraph 14 of this part, the annual real value and assessment shall be determined with reference to the income of the first year preceding the calendar year in which the electoral roll for the three living years' preparation is first published under these rules or, if the accounts for that year are not available, with reference to the latest accounts that are available; provided that, if in any case it is not possible to calculate the real value in accordance with the provisions of paragraph 14 of this part, the Collector shall determine the value upon the best information available.

18. Save as expressly provided in this part, no person claiming to be qualified as an elector for a Landholders' constituency on account of the possession of income derived from land for which a public register is kept shall be entitled to have his name entered into any account in determining his eligibility unless the land from which the income is derived stands registered in such register in his name.

19. If several persons are registered as joint holders of land, a copy of the said real process or registered map submitted in writing by any one of themselves who is not disqualified to be their representative for voting purposes, and the name of such representative shall be entered in the electoral roll and, if such nomination is not made, no entry shall be made in the roll in respect of such land.

* **Exclusion.—**Land registered under section 14 of the Madras Land Regulations Act, 1920, in the joint names of the registered proprietor and another person is not land registered in the name of joint holders within the meaning of this paragraph.

20. Omitted.

21. Save as heretofore provided, no person shall be qualified as an elector unless he possesses the prescribed property qualification in his own personal right and not in a fiduciary capacity.

22. A person who is nominated or qualified under clause of paragraph 20 or paragraph 21 of this part, to represent a group of joint-owners or a joint family, and who is himself possessed of a separate property qualification as an elector, may elect whether or to be entered in the electoral roll on his representative or separate capacity, but he shall be entered in one such capacity only.

Other Special Constituencies

23. A person shall be qualified as an elector for the Madras University constituency if he has a place of residence in India and is a member of the Senate or an Honorary Fellow, or a graduate of any degree course at the University of Madras.

24. A person shall be qualified as an elector for the Madras Students' constituency if he is a member of one of the associations affiliated to the United Provinces' Association of Southern India.

25. A person shall be qualified as an elector for the Madras Chamber of Commerce constituency if he is a member of the Madras Chamber of Commerce or of a Chamber affiliated to it.

26. Members of the Madras Trades Association, the Madras Indian Chamber of Commerce and the Nairankarai Nagarathar Association shall be qualified, respectively as electors for the constituency comprising the Chamber or Association of which they are members.

ANNEXURE B LEGISLATIVE ASSEMBLY PART I

* **General Conditions or Requirements**

1. (1) Every person shall be entitled to have his name registered on the electoral roll of a constituency who has the qualifications as provided for an elector of that constituency and who is not subject to any of the disqualifications hereinafter set out, namely:—

(a) is not a British subject; or

(b) has been adjudged by a competent court to be of unsound mind; or

(c) is under 21 years of age;

Provided that, if the holder of a State in India or any subject of such a State is not disqualified by registration on the electoral roll of a constituency of the Legislative Council as a member, such holder or subject shall not by reason of not being a British subject be disqualified for registration on the electoral roll of any constituency of the Legislative Assembly in that province, and no subject of such a State shall for that reason be disqualified for registration on the electoral roll of the Field registration and no subject of a State in Singapore shall, for that reason, be disqualified for registration on the electoral roll of the Asian Chinese constituency.

Provided further that no person shall be entitled to have his name registered on the electoral roll of more than one general constituency.

(2) If any person is nominated as an elector under Chapter II-B of the Indian Penal Code punishable with imprisonment for a term exceeding six months or is, after an inquiry by Government appointed under any rule for the time being in force regarding elections to a Legislative body constituted under the Act, reported as guilty of a corrupt practice as specified in Part I, or in paragraph 1, 2, or 3 of Part II, of Schedule V, to the Legislative Assembly

* **Clause 7 and 8—Legislative Assembly Electoral Roll.**

Electoral Rolls, but none, if on the electoral roll, shall be entered thereon and shall not be registered thereon for a period of five years from the date of the election or the expiry, as the case may be, of, if not on the electoral roll, shall not be registered thereon for a period of five years from the date of the expiry, as the case may be, of any other electoral qualification, but none, if on the electoral roll, shall be entered thereon and shall not be registered thereon for a period of five years from the date of the expiry, or, if not on the electoral roll, shall not be registered for a five period.)

Provided that the Governor General in Council may direct that the name of any person to whom this sub-section applies shall be registered on the electoral roll.

- Qualifications of electors.
- 2 (1) The qualifications of an elector for a general constituency shall be one or more of the following—
- (a) citizenship;
 - (b) domicile; and
 - (c) ownership or occupation of a building, or
 - (d) assessment to or payment of municipal or assessment taxes or rates or local rates, or
 - (e) assessment to or payment of income-tax, or
 - (f) the holding of land, or
 - (g) membership of a local body,
- as are specified in Part II in the case of that constituency.

(2) The qualifications of an elector for a special constituency shall be the qualifications specified in Part II in the case of that constituency.

PART II

* QUALIFICATIONS OF ELECTORS.

- Qualifications.
1. For the purpose of this Part—
- (a) "European" means any person of European descent in the male line being a British subject and resident in British India, who either was born in or has a domicile in the United Kingdom or is any British possession or in any State in India, or whose father was so born or had or up to the date of the birth of the person in question such a domicile;
 - (b) "previous year" means the financial year preceding that in which the electoral roll or the list of constituencies as the case may be for the time being under preparation is first published under these rules;
 - (c) "estate" means—
 - (i) any permanently settled estate or temporarily settled succession;
 - (ii) any portion of such permanently settled estate or temporarily settled succession, which is separately registered in the office of the Collector;
 - (iii) any settled Pukhtan or Jagir;
 - (iv) any tract or village of which the grant has been confirmed or recognised by the British Government or any appointed part of such village;
 - (v) any portion consisting of one or more villages of any of the estates specified above in clauses (i), (ii) and (iii) which is held on a permanent under tenancy;
 - (vi) "landholder" means a person owning an estate or part thereof and including every person entitled to collect the rents of the whole or any portion of the estate by virtue of any transfer from the owner or his predecessor or by virtue of any order of a competent court or of any provision of law;
 - (vii) "land" means a person who holds for the purpose of agriculture or any land in an estate on

condition of paying to the landholder the rent which is legally due upon it.

2. For the purpose of determining any claim to a qualification under this Part, the entries in the land revenue accounts and mutations and in the records of the revenue shall be conclusive evidence of the facts stated therein.

3. (1) If property is held or payments are made jointly by the members of a joint family or by joint tenants the family or joint holding shall be deemed as the unit for determining whether under this Part the requisite qualifications exist; and, if it does exist, the person qualified shall be the member authorised by a majority of the family or of the joint holders or, in the case of a Hindu joint family, the manager, unless any other member is authorised by the majority of the whole members of the family.

(2) A person may be qualified either in his personal capacity or in the capacity of a representative of a joint family or of joint tenants, but not in both capacities.

4. Save as in this Part expressly provided, no elector person shall be qualified as an elector in respect of any property, unless he possesses the prescribed property qualifications in his own personal right and not in a fiduciary capacity.

5. For the purpose of this Part the annual net value of land shall be determined in accordance with the provisions of section 78 of the Madras Land Revenue Act, 1920, with reference to the accounts of the first year preceding the calendar year in which the electoral roll for the time being under preparation is first published under these rules or, if the accounts for that year are not available, with reference to the latest accounts that are available, provided that, if in any case it is not possible to ascertain the net value in accordance with the provisions of section 78 of the Madras Land Revenue Act, 1920, the Registrar or Officer shall determine the value for the purpose of this part upon the best information available.

General Constitution

6. A person shall be qualified as an elector for Malabar City constituency who is either a European, a Mohammedan or a European and who resided in the constituency for not less than 120 days in the previous year and who—

- (a) was in the previous year assessed to an aggregate amount of not less than Rs. 20 in respect of one or more of the following: taxes, duty, property tax, tax on companies, or profession tax; or
- (b) was in the previous year assessed to income-tax.

7. A person shall be qualified as an elector in any other general constituency who resided in the constituency for not less than 120 days in the previous year and who—

- (a) is registered as a ryotwari proprietor or an allottee of land of which the annual net value is not less than Rs. 50; or
- (b) holds as a registered leaseholder under a ryotwari proprietor or an allottee of land of which the annual net value is not less than Rs. 50; or
- (c) is registered jointly with the proprietor under section 14 of the Malabar Land Regulations Act, 1920, as the proprietor of land of which the annual net value is not less than Rs. 50; or
- (d) is a landholder holding an estate of which the annual net value is not less than Rs. 50; or
- (e) holds as "ryot" or as tenant under a landholder, land of which the annual net value is not less than Rs. 10; or
- (f) was in the previous year assessed to an aggregate amount of not less than Rs. 20 in respect

* Schedule II—Legislative Assembly Electoral Rules.

of one or more of the following taxes, namely, property-tax, tax on occupation, or profession tax;

(g) was in the profession or service in connection with it.

Provided that—

(i) a Mohammedan or European shall be qualified as an elector for a non-Mohammedan constituency;

(ii) a person shall be qualified as an elector for a Mohammedan or European constituency according as he is a Mohammedan or a European; and

(iii) a European shall not be deemed to be disqualified as an elector for the Madras (European) constituency by reason only of non-residence, if he is employed in the constituency and has not withdrawn in due time on leave from such employment.

Special Constituencies

The Landholders' constituency.

1. A person shall be qualified as an elector for the Landholders' constituency if his name is registered on the electoral roll of any landholders' constituency of the Legislative Council of the Governor of Madras.

The Indian Commerce constituency.

2. Every Indian and can duly authorized representative of every Indian partnership shall be qualified as an elector on the roll of the Indian Commerce constituency if such person has resided in the presidency for not less than 120 days in the previous year, and if he on the partnership at the same year, has been assessed to income-tax in the previous year an amount of not less than Rs. 50,000 derived from business within the meaning of the Indian Income Tax Act, 1918.

Explanation.—For the purposes of this paragraph—

(a) "Indian" includes any person who is not a European; and

(b) "Indian partnership" means any non-European joint family, or any firm, association or company of which no partner or director is a European.

Part II, Group, May 13, 1933

[G.O. No. 24, Gen. (Legislative)].

No. 31.—Under rule 12 of the Madras Electoral Rules, the Government are pleased to make the following amendments in the regulations for the preparation of electoral rolls for the general and special constituencies of the Madras Legislative Council published in Notification No. 63, dated 9th October 1929, on pages 191-192 of Part I of the Part II, Group Gazette, dated 17th October 1929:—

In column (4) of item 3 in the schedule to section IV of the above regulations and "Honorary Secretary, South Indian Newspapers' Association" for the words "Joint Secretary, South Indian Newspapers' Association."

No. 32.—Under rule 15 of the Madras Electoral Rules, the Government are pleased to make the following amendments in the regulations for the conduct of elections for the general and special constituencies of the Madras Legislative Council published in Notification No. 63, dated 9th October 1929, on pages 191-192 of Part I of the Part II, Group Gazette, dated 17th October 1929:—

In column 2 of the list item in the schedule to the above regulations, read "Honorary Secretary, South Indian Newspapers' Association" for the words "Joint Secretary, South Indian Newspapers' Association."

J. VENKATASWAMY,
Secretary to Government.

REVENUE DEPARTMENT.

EXTENSIONS OF LEAVE.

Part II, Group, May 15, 1933.

No. 174.—M. K. R. T. Subba Rao Narada Gove, Deputy Collector, an extension of leave on average pay without medical certificate for one week in continuation of the leave granted in G.O. No. 264, dated 18th March 1933.

Part II, Group, May 11, 1933.

No. 175.—M. K. R. T. Subba Rao Narada Appa Rao, Deputy Collector, an extension of leave on average pay without medical certificate for one week in continuation of the leave granted in G.O. No. 264, dated 18th March 1933.

POSTING.

Part II, Group, May 17, 1933.

No. 176.—The following posting of a Deputy Collector is ordered:—

M. K. R. T. Subba Rao Narada Gove, on return from leave, to the S. S. Rao Treasury.

ERRATA.

Part II, Group, May 11, 1933.

In the draft declaration published at page 412-413 of Part I of the Part II, Group Gazette, dated 12th March 1933, in respect of the lands reserved in Perambalur division, Palghat taluk, Madhavapuram, for the Palghat-Palghat Railway:—

Part 10.—For "10 1/2 acres and 214 square fathoms" shown as the total extent of the holding of the draft declaration, read "74 1/2 acres and 121 square fathoms."

Part 11, item 11.—For "10 1/2 acres," read "101 acres."

Part 12.—For "12 1/2 acres and 214 square fathoms" shown as the total extent of the holding of the draft declaration, read "104 1/2 acres and 214 square fathoms."

In the draft declaration published at page 733-734 of Part I of the Part II, Group Gazette, dated 27th April 1933, in respect of the lands reserved in Aravindapuram village, Vaidhachalam taluk, South Arcot district, for the Madhavapuram-Tiruchendur Railway:—

Part 10.—Append B to No. 4, T. S. No. 64 D, for "with 10 1/2 A.," read "with 10 1/2 A."

Part 11.—Append B to No. 10-12 C, T. S. No. 1184 C, for "10 1/2 A.," read "10 1/2 A.," and "10 1/2 A.," read "10 1/2 A."

In the draft declaration published at page 737-738 of Part I of the Part II, Group Gazette, dated 27th April 1933, in respect of the lands reserved in Madhavapuram village, Palghat taluk, Madhavapuram district, for the Palghat-Palghat Railway:—

Part 10, item 1, for "with 10 1/2 A.," read "with 10 1/2 A.," and "10 1/2 A.," read "10 1/2 A."

In the draft declaration published at page 751-752 of Part I of the Part II, Group Gazette, dated 27th April 1933, in respect of the lands reserved in Madhavapuram village, Palghat taluk, Madhavapuram district, for the Palghat-Palghat Railway:—

Part 10, item 1, for "10 1/2 A.," read "10 1/2 A.," and "10 1/2 A.," read "10 1/2 A."

Feb St. George, May 29, 1929

Under section 5 of the Land Acquisition Act of 1914, the Government in Oregon hereby declares that the lands herein described are necessary for the construction of a water lands project below and containing 2751 acres and 250 square rods, in the same or like lands, are needed for a public purpose, to wit, for the Adams-Fairbank Highway; and, under section 4 of the same Act, the Special Deputy Collector is authorized and directed to perform the functions of a Collector under the Act and to make order for the acquisition of the said lands. Under sub-section (1) of section 4 of the Act, the Government in Oregon further declares as follows: That the lands herein described are necessary for the construction of a highway, as aforesaid, from the date of the passage of the act hereinbefore in section 5 of the said Act. And of the lands is hereby the title of the Special Deputy Collector for Land Acquisition, Oregon, may be inquired at any time thereafter, after being.

[illegible]

6. Selected candidates will be required to undergo further training on works in India for a period of at least one year. During that period they will be on probation and their final appointment will be made dependent upon the result of such probation.

7. Candidates must be prepared, if called upon, to attend at the India Office for a personal interview with the Selection Committee. Their railway fares for this purpose will be paid by the India Office.

8. Selected candidates will further be required, before final appointment by the Secretary of State in Council, to appear before the Select Board at the India Office for examination as to their physical fitness for service in India.

9. They will also be required to satisfy the Secretary of State of their ability to ride.

10. They will on appointment be provided with a free first class passage to India and will be required to proceed thither as soon after the middle of September as can be arranged.

They will be entitled to the benefits of the Passage Rules which are contained in Appendix V.

11. Their pay and their services for leave will begin from the date of their landing in India, subject to their proceeding to take up their duties without avoidable delay. If they so desire, they will be able to obtain an advance of two months' pay, receivable by monthly instalments of one-third salary. Of this advance a portion not exceeding one-half may be drawn in England.

12. Candidates will enter the service as Assistant Executive Engineers on a salary, including allowances pay, at Rs. 6,250 a year. Service for increments and for pension will count from the date of landing in India (subject as above) or from the 1st October of the year of appointment, whichever is earlier.

13. The instruments required by Assistant Executive Engineers are supplied to them in India.

14. Particulars as to pay, pension, etc. are contained in Appendices III, IV and V.

India Office,
January 1928.

APPENDICES.

APPENDIX I.

LIST OF DOCUMENTS REFERRED TO IN PARAGRAPH 6.

Calcutta.—I. A., with Honours in the Engineering Science Final Honours School.

Cambridge.—I. A., with Honours in Mechanical Sciences Tripos.

* Selected candidates will be examined by the Civil Service Commission as to their ability to ride, and will be required to ride a motor.

(1) A certificate from the Civil Service Commission that they are able only to handle the engine for the efficient performance of the duties of the Indian Service of Engineers, or

(2) A certificate from the Civil Service Commission of sufficient proficiency in riding.

In the latter case they will be subjected, on their arrival in India, to such further tests as may be required by their Government.

Candidates would need that the certificate of selection is given in India, a duly qualified in time and quality as shown at each, when necessary passing.

The child body will be for adding and testing: (a) working of the engine, (b) testing without driving, (c) testing without driving, (d) testing without driving, (e) testing without driving, (f) testing without driving, (g) testing without driving, (h) testing without driving, (i) testing without driving, (j) testing without driving, (k) testing without driving, (l) testing without driving, (m) testing without driving, (n) testing without driving, (o) testing without driving, (p) testing without driving, (q) testing without driving, (r) testing without driving, (s) testing without driving, (t) testing without driving, (u) testing without driving, (v) testing without driving, (w) testing without driving, (x) testing without driving, (y) testing without driving, (z) testing without driving.

Although the candidates will, in the case, be required to show that the engine will not be damaged, in applying any other test which may appear desirable.

St. Andrews.—B.Sc. in Engineering.

Strasbourg.—B.Sc. in Engineering.

Strasbourg.—B.Sc. in Engineering.

Toronto.—B.A. (Ordinary or with Honours in Engineering).

Toronto.—B.Sc. in Civil, Mechanical, or Electrical Engineering, or in Naval Architecture (Honours or Ordinary degree).

Toronto.—B.Sc. (Technical degree) in Engineering, Ordinary or with Honours (not including the B.Sc. in Engineering (Mining) or the B.Sc. in Engineering (Metallurgy)). The external degree is exempted from the examination, provided it is recognised by the Institution of Civil Engineers as exempting from sections A and B of the A.M.I.C.E. examination.

Toronto University (Mechanical).—B.Sc. in Engineering (Honours degree or Ordinary degree obtained in and after 1925). B.Sc. in Mechanical or Electrical Engineering (Higher Course degree or Ordinary Course degree with a first division pass in the final examination).

Toronto University.—B.Sc. in Civil, Mechanical, or Electrical Engineering (Honours or Ordinary degree).

Toronto.—B.Sc. in Civil, Mechanical, or Electrical Engineering (Honours or Ordinary degree).

Toronto.—B.Sc. in Civil, Mechanical, or Electrical Engineering (Honours or Ordinary degree).

Toronto.—B.Sc. in Civil, Mechanical, or Electrical Engineering (Honours or Ordinary degree).

Toronto.—B.Sc. in Civil or Mechanical Engineering (Honours or Ordinary degree).

Toronto.—B.Sc. in Civil, Mechanical, or Electrical Engineering.

Toronto University of London.—B.E.

Toronto University, Belfast.—B.Sc. in Engineering.

Note.—The above degrees will be accepted only if taken after three years' study and the passing of the regular examination in the second University.

APPENDIX II.

REGULATIONS AS TO THE PHYSICAL EXAMINATION OF CANDIDATES FOR APPOINTMENT TO THE PUBLIC WORKS DEPARTMENT IN INDIA.

Note.—Copies will be supplied to candidates on application to the office.

APPENDIX III.

PARTICULARS REGARDING THE PHYSICAL EXAMINATION OF THE PUBLIC WORKS DEPARTMENT IN INDIA.

(The arrangements and details hereafter described are subject to revision according to the requirements of the service.)

1. The Regular Engineer Establishment of the Public Works Department in India consists of a staff of Engineers, military and civil, engaged on the construction and maintenance of the various Public Works undertaken by the State in India.

2. The permanent establishment of the department is constituted from the following sources:—

(1) Officers of Royal Engineers.

(2) Officers supplied by the Secretary of State by selection from the United Kingdom.

(3) Persons selected at the Government Civil Engineering College in India.

(4) Occasional admission of other qualified persons.

1. The various ranks of the Department are as present as follows:—

Executive Engineers and Assistant Executive Engineers

Year of Service.	Basic Pay.			Gratuities Pay.	
	Junior.	Senior.	12 years or less.	12 years or more.

Note.—Gratuities pay is admissible only to officers of senior ranks. It is not due to an officer who leaves the service before the first four years of the term specified in the Schedule.

Superintendent Engineers.—Receipts 1,750 a month, rising by annual increments of Rs 125 a month to Rs 3,125 a month, with arrears pay of £12 6s. 8d. a month payable in sterling.

Chief Engineers.—Receipts 2,750 a month, rising by annual increments of Rs 125 a month to Rs 3,500 a month, with arrears pay of £12 6s. 8d. a month payable in sterling.

The arrears will be given for approved service only, and in accordance with the rules of the Department.

Pay on the junior scale will be drawn by officers holding charges of less importance than a Divisional charge, but no such officer will be allowed to draw more than the pay of the week prior to service on the junior scale unless he is reported to be fully qualified for the charge of a Division.

Pay on the senior scale will be drawn by officers holding charges of not less importance than the charge of a Division.

Promotions above the grade of Executive Engineer are dependent on the consensus of opinion in the authorized establishment, and are made wholly by authority of the authority is considered to confer no claim to promotion.

APPENDIX IV.

(The paragraph is of the Regulations)

Note.—This appendix is merely selected to show the principal rules in the Regulations of India and the Privileges of general application to Engineers appointed to the Indian Service from the United Kingdom, without going into details, and does not pretend to deal with every one of the rules. The rules are subject to alteration, and any proposed changes will be notified with reference to the relevant text of the Fundamental Rules of Civil Service Regulations for the Indian Service.

Leave

(The following rules apply only to officers of non-Indian service.)

1. Leave is calculated in terms of "leave on average pay," and the amount of "leave on average pay" which an officer owes is five-twentieths of the period spent on duty.

2. Subject to certain maxima and minima, and to the limitations noted below, an officer may draw, at his option, leave salary equal to the average pay of the last twelve months of completed duty or to half such average pay. If leave on average pay and half the period as half average pay is granted against the leave earned, an officer may take his leave on average pay, or half average pay, or on a combination of the two, provided that he does not absent from duty more than twenty-eight months, and that the amount of leave taken on average pay does not exceed eight months at any one time. The maximum amount of leave admissible during an officer's career, expressed in terms of leave on average pay, is three years plus one-twelfth of the period spent on duty, of which not more than one year plus one-twelfth of the period spent on duty may actually consist of leave on average pay. Leave not due and exceeding half average pay may be granted on medical certificate, and, under certain limits, for other reasons, but an officer will not again commence to earn leave until the expiration of a fresh period of duty sufficient to earn a credit of leave equal to the leave he has taken before it was due. After twenty-eight months' absence from duty an officer draws quarter average salary, subject to certain maxima and minima.

3. Leave salary is ordinarily payable in respect of the officers' unpaid leave in India, and in sterling if he spends it elsewhere.

4. It should be noted that leave on average pay is claimed as of right, but is given or refused at the discretion of Government.

Pension.

5. The following is a summary of the pension rules applicable to Engineers appointed to the Indian Service by the Secretary of State from the United Kingdom.

Ordinary Pension.

6. Subject to the absolute right, which will not ordinarily be exercised, of the Government of India to decline to permit any officer to retire before reaching the age for superannuation, should it be necessary in the public interest to retain his services, officers will be allowed to retire after twenty or more years' qualifying service.

7. An officer is entitled to superannuation pension on attaining the age of 55 years, when retirement is ordinarily required, or on retirement thereafter. (An officer is sometimes, for special reasons, retained after attaining the age of 55 years.)

8. The rate of retiring and superannuation pension is 1/10th of average pensionable salary, subject to the following maxima:—

Completed period of qualifying service.	Maximum limit of Pension as % of Pensionable Salary.
20—25	4,000 per annum.
25	5,000 ..
30	6,000 ..
35	7,000 ..
40	8,000 ..
45	9,000 ..
50	10,000 ..

9. Government may permit any officer after he has completed 20 years' service without giving reasons, and without any claim for compensation is addition to pension, and in that event the pension admissible to him will ordinarily be regulated on a scale not exceeding that laid down above. Government also reserves the general power to reduce the pension, adversely admissible to all cases where an officer's service has been unsatisfactory.

12. An officer who is compelled to retire through disability was considered by the Government to be eligible for a gratuity or pension as follows:—

(a) After qualifying service of less than 7 years a gratuity not exceeding one month's emoluments for each completed year of service (except in special cases and under the orders of the Government of India, who may consider a maximum of twelve months' emoluments). If the emoluments of the officer have been reduced during the last three years of his service, otherwise than as a penalty, average emoluments may, at the discretion of the authority which has power to exercise the gratuity, be substituted for emoluments.

(b) After a service of not less than 7 years, a pension not exceeding the following amounts:—

Completed years of qualifying service	Rate of Pension	Amount in Rs.
7	1 twelfth of average emoluments	2,400
8	2	2,520
9	3	2,700
10	4	2,880
11	5	3,060
12	6	3,240
13	7	3,420
14	8	3,600
15	9	3,780
16	10	3,960
17	11	4,140
18	12	4,320
19	13	4,500
20	14	4,680
21	15	4,860
22	16	5,040
23	17	5,220
24	18	5,400
25	19	5,580
26	20	5,760
27	21	5,940
28	22	6,120
29	23	6,300
30	24	6,480
31 and above	25	6,660

Average emoluments are calculated over the last three years of service.

Pension drawn at this rate may be suspended (a) in whole or (b) in part, if the officer is not entitled to it.

Additional Pension.

13. The Government of India have classified certain high appointments into two grades, the lower comprising those posts which involve high but moderate responsibility, the higher comprising those which require a marked degree of independent administrative and professional capacity. Officers who have held appointments listed in the lower grade may be granted an additional pension at the rate of Rs. 240 for each completed year of service (except in special cases and under the orders of the Government of India, who may consider a maximum of twelve months' emoluments). If the emoluments of the officer have been reduced during the last three years of his service, otherwise than as a penalty, average emoluments may, at the discretion of the authority which has power to exercise the gratuity, be substituted for emoluments.

14. These additional provisions will be subject to the condition that the officer to whom the pension is granted has been approved by the Government, and that an officer who, in the event of voluntary retirement, has completed 25 years' qualifying service.

The upper grade includes the Consulting Engineer in the Government of India and Chief Engineer of the Indian Service of Engineers.

The lower grade includes Superintending Engineer, Indian Service of Engineers.

Provisional Fund.

15. A General Provisional Fund, to which subscription is compulsory, has also been established on the following basis:—

(1) Subscription is compulsory up to 4 per cent of pay, with voluntary subscription of not more than a further 2-1/2 per cent, but the amount of the compulsory subscription is reduced by the amount of the subscription in the Provisional Fund (Indian Service of Engineers). Subscriptions during leave of any kind are optional.

(2) Compound interest on such payments is actually credited by Government in each officer's account.

(3) The sum which thus accumulates is the credit of an officer in his absolute property, subject to the rules of the Fund, and is handed over to him absolutely, on his quitting the service; or, in the event of his death before retirement, to his legal representatives as such other person or persons as, under and subject to the rules of the Fund for the time being in force, may be entitled thereto.

Two Service Schemes (India) Fund.

The Service Schemes (India) Fund, Provisional Fund (inaugurated in September 1924) has been instituted to make provision for the widows and orphans of European and Anglo-Indian members of the Indian Civil Service in India other than the Indian Civil Service.

Subscriptions, which are compulsory for such officers, are payable, normally, for a period of 25 years commencing in the first year at £1 the 1st, a month and rising each year by 1s. 6d. a month to £4 the 25th, a month in the 25th, and subsequent years.

The benefits derived by these payments are as follows:—

To a widow:—

£100 a year with a gratuity of £200 on the death of the subscriber.

To a child:—

	Born to age 6 to 12.	Age 6 to 12.	Age 12 to 21.	Age 21 and over.
Widow	2	4	6	8
Orphan	10	14	20	25

with a gratuity on the death of the subscriber of one year's pension at the rate appropriate to the then age of the child as specified above.

The Fund also has a Voluntary Section under which subscribers, on making the appropriate additional payments, may receive enhanced benefits up to the following maxima, which include the benefits provided under the Compulsory Section:—

To a widow:—£200 a year with a gratuity of one year's pension on the death of the subscriber.

To a child:—Born to age of 12, £100; from age 6 to age 12, £140; from birth to age 6, £160.

APPENDIX V.

PASSAGE RULES.

(The arrangements herein described are subject to the provisions of the authorized text of the rules relating to the cost of Passage.)

The maximum benefits to which an officer will be entitled will be passage of a total value equal to the cost of the passage of the passenger between Bombay and London by P. and O., 1st Class, 1st Cabin, as follows:—

(a) For the officer himself, four return passages.

Under section 4 of the Land Acquisition Act, the Governor in Council hereby declares that the land specified below and measuring 147 acres, be the same a little more or less, is needed for a public purpose, to wit, for the usual system of the Cavery-Mettur Project, notice in that behalf, is hereby given to all whom it may concern in accordance with the provisions of section 4 (1) of the Land Acquisition Act, and the Governor in Council hereby authorizes the Special Deputy Collector No. II, Tanjore, and his subordinates to execute the powers conferred by section 4 (2) of the Act and under section 5 (a) of the Act, appoints the Special Deputy Collector No. II, Tanjore, to perform the functions of a Collector under the Act and directed to take order for the acquisition of the said land. A plan of the land is kept in the office of the Special Deputy Collector No. II, Tanjore, and may be inspected at any time during office hours.

M. R. Dy. V. Sankarantha Pillai Ayyalur.

No. 751.—Under rule 5 of the rules for the election of members of the Corporation of Madras by the Madras Chamber of Commerce, the Government hereby notify that the name of the person elected by the Chamber to fill the vacancy caused by the resignation of Mr. D. M. Reddy shall be reported to Government not later than the 31st May 1929.

GRULAM HUSAIN,
Assistant Secretary to Government.

Port St. George, May 10, 1929
(G.O. No. 1914, P.M.).

No. 752.—The following details of certain rules prescribing the qualifications of registrars of births and deaths in municipalities which the Government acting with Municipal Corporations to make under clause (1) of section 11 and clause (c) of sub-section (1) of section 205 of the Madras District Municipalities Act, 1920 (Madras Act V of 1920), is hereby published for general information as required by section 205 of the said Act. It will be further provided with effect on works from the date of publication of this notification:—

DEAR: RULES.

1. No person shall be appointed as Registrar of Births and Deaths in a municipality unless
(a) he is of good conduct;
(b) he is able to read and write the local vernacular;

(c) he is physically fit for out-door work;
(d) he possesses a completed secondary school-leaving certificate with a minimum of 50 per cent of the marks in English; and

(e) he has completed a course of training in vital statistics appended to Rule 3, or be possessed at least the technical qualifications of either a Licentiate Medical Practitioner, or a qualified Sanitary Inspector.

2. (1) The course of training in vital statistics shall be for a period of not more than shall consist of two parts, namely:—
(i) theoretical; and
(ii) practical.

(2) The theoretical course of training shall consist of lectures delivered during a period of not less than two weeks by the Municipal Health Officer on the following subjects, namely:—
(a) Causes;
(b) Brief history of registration;
(c) Aims and objects of registration;
(d) Importance of accuracy in registration, when commonly met with and their avoidance;
(e) Symptomatology of the more common diseases;
(f) Registers and returns;
(g) Calculation of vital statistical rates;

and
(3) Laws, Rules and Regulations and Departmental Orders regarding vital statistics.

(4) While undergoing the theoretical course and during a period of not less than two weeks thereafter, the candidate shall be required to acquire a practical knowledge of registration of vital statistics and recording and preparation of returns by working under a Registrar of Births and Deaths.

(5) On the termination of the course of training, the candidate shall be examined by the Health Officer in the theoretical and practical parts of the course and if found proficient shall be provided a certificate to that effect in the following form, namely:—

“I, _____, have undergone from _____ to _____ the course of training prescribed in G.O. No. _____ dated _____ at my satisfaction and he having passed the examination held at the end of the course is hereby declared to be qualified for appointment as a Registrar of Births and Deaths in _____ Municipality.”

Signed _____
Municipal Officer.

Dated _____ 19 _____.

(49.2, 30.1, 21.6, 1.4, 0.3).

No. 710.—Applications of the West Indian District Board, for a loan:—

1. The purpose for which the loan is acquired, and the estimated date of completion of a bridge over the Ganges due to the Government of Madras.
2. The amount which it is proposed to borrow—Rs. 10,000.
3. The land on the security of which it is proposed to borrow—The West Chitradurga District Board lands.
4. The law under which the said loan is being raised or sold.—The Indian Loan Receipt Act, 1920.

4. The firm's value, which the money is to be borrowed - The value of the firm will be taken into account.
5. The rate of interest at which it is proposed to borrow - per cent per annum.
6. The term of years for which the money is to be borrowed and the method for which it is to be repaid - The loan will be repaid by fixed equal annual instalments or by the Sinking fund method of interest.
7. An appraisal of the financial position of the local authority - including a statement of all existing public works and all Public-Physical statements are appended. A sum of £1,44,000 has been granted by the Government.

STATEMENT SUGGESTS THE BIENNIAL PAYMENT OF THE WEST SUBARVAL DISTRICT BONES FOR THE THREE YEARS
ENDING WITH THE CURRENT YEAR.

Part L.—Amount of receipts and expenditure of the General and Special Service Accounts.—On June 30, 1901, the amount of receipts and expenditure of the General and Special Service Accounts was as follows:

The above amendments will come into effect immediately.

(By order)

G. D. S. CHETTI,
Registrar,
University Office, Bangalore,
18th May 1929.

MADRAS MEDICAL COLLEGE.

TRAINING OF SANITARY INSPECTORS.

Candidates who have passed the Matriculation Examination prior to 1918 or any other higher examination are eligible for admission to the Sanitary Inspectors Class. Those who have obtained a "Completed" Secondary School Leaving Certificate issued under the authority of Government showing that the candidate possesses sufficient knowledge in the ordinary subjects and in two optional subjects other than Shortland and Typewriting and preferably Mathematics, Chemistry or Physics or other equivalent or higher examinations are also eligible. In the selection of candidate preference is given to those who belong to this Presidency and have passed in Elementary Science subjects.

No exemption from the prescribed general educational examination is granted but the Director of Public Health has been empowered to exempt candidates for special reason in deserving cases who are working in the Health Department of Local Boards or Municipal Councils.

Note.—A Secondary School Leaving Certificate shall not be regarded as "completed" unless it shows that the candidate has completed the studies in Groups A and B and has obtained at least 60 per cent in the full marks in each of the subjects in Group A and in each of the two subjects in Group B. (S.O. No. 865, P. 2, dated 10th November 1925.)

2. Applications from candidates eligible under rule 1 must be sent to the Principal, Medical College, Madras, between the 15th of April and the 1st of June. The applications should be made on printed forms which will be forwarded till the 15th of May by the Senior Assistant Professor, Medical College, Madras.

There is a special case this year application will be received by the Principal, Medical College, Madras, till the 15th May and till 1st June and general forms will be accepted by the Senior Assistant Professor till the 1st of June 1928.

Applications for admission for these courses of training will also be considered as applications for admission to the course of training in sanitation at the King Institute of Technology, Madras and the fee payable for that admission must be paid at the same time as the College fees are paid, and a separate receipt for the same should accompany the receipt for the College fees. This kind is which such payment shall be entitled to "XXIII d.—Fee for Health—Miscellaneous—Other Public Health Service."

Applications should be accompanied by the following documents:—

(a) A statement of marks obtained at the Public Examination for the Secondary School Leaving Certificate issued by the Headmaster of the School or by a "Qualified" Government Officer. This is important as no application will be considered in the absence of this statement of marks.

(b) A certified copy of Certificate or Leaving Certificate.

(c) A certified copy of conduct certificate.

(d) A certificate of recommendation.

(e) The order of the superior officer (if the applicant is in public service) granting permission to join the course.

(f) Exception certificate in the case of candidates accepted under rule 1; and

(g) If the applicant belongs to a backward or depressed class, a certificate from the Revenue Authorities stating class or caste.

Note.—None of these documents will be returned.

3. The College fee provided for the two courses of Hygiene and Physiology including First Aid and Elementary Sanitary Engineering together is Rs. 75 including tuition fees. In the case of candidates who join the Hygiene and Physiology including

First Aid course only the fee is Rs. 45. In the case of those who join Minor Sanitary Engineering class only the fee is Rs. 35. Selected candidates should pay the college fees into a Government Treasury in the name of "XXIII Medical (a) Madras Medical College—Sanitary Inspectors class fees" and send the receipt to the Principal, Medical College, before the 1st of July.

4. Applications will be rejected—

(a) if they are not accompanied by documents mentioned in rule 3.

(b) if they are not received on or before the 1st of June.

(c) if the applicants do not possess the qualifications prescribed in rule 1.

Rejected applications will be returned to the applicant with the documents forwarded therewith.

5. A selected candidate who fails to pay the college within 5 days after the announcement of the result will be refused admission and as such for the refund of the fee will be entertained.

6. Students will not ordinarily be granted leave during the working days of service. The certificates of absence will be granted to those who have not made satisfactory progress in the classes and they will not be permitted to appear for the Elementary Sanitation tests.

SANITARY INSPECTOR'S CLASS.

7. The course of instruction which qualifies for the certificate of Sanitary Inspector is conducted in the Madras Medical College and extends from 1st of July to 15th of June, a period of twelve calendar months. The course consists of theoretical and practical training in General Hygiene including disinfection in Bacteriology, Physiology including First Aid and training in Practical sanitation by the Health Staff of the Corporation of Madras and in Elementary Sanitary Engineering.

8. Candidates who shall have successfully completed the course of instruction shall be required to undergo an examination in the subjects of the course conducted by a Board of which the Director of Public Health shall be the Chairman. The examination shall consist of two written papers of 3 hours each in Hygiene (one of theoretical, the other of a practical nature) and written paper in Physiology including First Aid and one in Elementary Sanitary Engineering and of an oral and practical examination in the above subjects. The examination fee is Rs. 25 for each subject.

9. Candidates who pass the above examination shall be known as Sanitary Inspectors and will be given a Government certificate issued by the Chairman, Board of Examiners. The certificate will bear the official impression of the candidate and contain a description of his works of certification.

10. Candidates who have successfully completed the course for the qualification of Junior Sanitary Inspectors in the Engineering College, Madras, will not be required to take the course in Elementary Sanitary Engineering although they will be required to pass the examination in the subject.

11. Any candidate failing to secure 25 per cent of the marks in any subject shall be required to undergo a training for one year in that subject before he sits at the next examination in that subject.

12. Applications for the course of training and examination in sanitation and the payment of fees for the same except as provided for in rule 3 above shall be subject to the same rules at present in force regarding neither the candidates who are taking a course of training or the qualifications of Sanitary Inspectors shall be admitted to the course without undergoing such training.

* See page 356 till post, 21st March 1928 till 1st June.

Infant mortality.—Child labour and maternity relief.—Causes of infant and maternal mortality, relief, prevention, child welfare scheme and maternity relief, the home, the mother, the infant.

The Registrar of Co-operative Societies, Madras, has, under section 36 (1) of the Co-operative Societies Act II of 1912 (India), cancelled the registration

of the Bangalore Co-operative Society No. 2946 in the Peshawar District of the Punjab Province, and has appointed the Assistant Registrar, Coimbatore, to be liquidator under section 43 (1) of the same Act. This order will take effect on the expiry of two months from this date, viz., 6th May 1929.

H. M. HOOD,

Registrar of Co-operative Societies.

Madras, 20th May 1929.

The post-box number of the District Superintendent of Police, Government Railway Police, Madras, has been changed from No. 795 of Express Post Office to No. 1485 of the General Post Office, Madras.

T. DEVARAJA MUDALIYAR,

Deputy Superintendent, Govt. Railway Police.

Madras, 11th May 1929.

The office of the Inspector of Salt Revenue, Madras District Circle, has been shifted to Thanjavur, from 1st May 1929 and in future all communications intended for the above should be addressed as follows:—

Inspector of Salt Revenue,
New Salt Depot, Thanjavur,
Thanjavur Post.

(Hijabul),

Inspector, Madras District Circle.

Madras, 14th May 1929.

SUSPENSION OF LICENSE.

Under rule 22 (a) of the Motor Vehicles Rules, 1928, the District Magistrate, Kattak, hereby orders that the driver's license held by Subbarayan Govindarath, Kattak, Madras District, be cancelled, and that the 'G' permit of the Motor Bus No. K.L. 213 be cancelled under condition (4) of the 'G' permit form.

A. G. SLACK,

District Magistrate.

Kattak, 14th May 1929.

CHANGE OF HEADQUARTERS.

With effect from 15th May 1929 the office of the Harbour Engineer-in-Chief to the Government of Madras will be transferred to Cochin.

A. G. MENEZES,

Deputy Harbour Engineer-in-Chief to Government.

Madras, 1st May 1929.

DEPARTMENT OF AGRICULTURE.

GRAPPLY CROP OF 1928-29—LATE CROP.

INDEMNITY MONTHLY REPORT.

The late area of the apply crop is expected to give a record yield in most districts. The yield is expected to be better than in the past owing to the early start and the favourable weather.

GRAPPLY CROP OF 1928-29—SECOND CROP.

INDEMNITY MONTHLY REPORT.

Second crop of apply is being harvested in parts of the area and is expected to give a record yield in most districts. The yield is expected to be better than in the past owing to the early start and the favourable weather.

Madras, 18th May 1929.

Only one article will be supplied at this time.

P. VENKATARAMANA RAJU.

Executive Engineer, Kistna Waters Scheme.
Etwah, 12th May 1923.

TENDERS FOR THE CONSTRUCTION OF INTERCEPTING SEWERS IN CONNECTION WITH THE SCHEME OF DRAINAGE FOR THE PALAKI MUNICIPALITY.

Tenders are invited for the construction of intercepting sewers in connection with the scheme of drainage for the Palaki Municipality at an estimated cost of approximately Rs. 1,35,000.

Interested tenders may apply to the undersigned at the Executive Engineer, Salem Division, Salem, for detailed tender notes and for blank forms of tender which are to be procured at Rs. 2 per copy. Tenders will be received by the undersigned up to 1 p.m. on 10th June 1923.

K. W. F. WALSH,

Superintending Engineer, Cuddalore Creek, Cuddalore, 6th May 1923.

TENDER FOR THE CONSTRUCTION OF A FIELD LABORATORY, ETC., AT THE PADDY-BRECKING STATION, ALUTHARA.

Tenders are requested for the construction of (a) a field laboratory at the Paddy-breeding station, Aluthara, and (b) construction of a paddy-breeding station at the Paddy-breeding station, Aluthara. It will be required by the undersigned at his office up to 1 p.m. on 10th June 1923 for the two weeks mentioned above.

2. The abstract estimate (quantity only) for the two weeks is furnished in the schedule appended.

and the rest in two equal instalments on the 1st October 1922 and 1st January 1923. The lease amount should be paid as they fall due into the Kanyasree Treasury, Kanyasree, and the receipted stubs retained as to each. The Range Officer or, before the date fixed for the payment of the instalments.

10. If the instalments are not paid on the due dates, work may be suspended until such time as the arrears are paid with interest and if the arrears are not paid within one month of their falling due the Estate Collector may suspend the work, suspend the weekly deposit and receive the instalments at the rate of the arrears. The contractor will not be entitled to any extension of time on account of the suspension of the work due to any arrears which may be collected discontinuously during the suspension period. Interest will be charged at 4½ per cent on all arrears paid.

11. No post-bills will be accepted in any account.

12. Instead of bidders are expected to inspect the area and satisfy themselves before accepting the sale as to what they are going to bid for.

13. Intending bidders may obtain at any time before particulars regarding the sale at the Range Office, Kanyasree.

14. The successful bidder will be put in possession of the area as far as the schedule is concerned from the date of execution of the agreement.

15. In the event of the death of the successful bidder before executing the agreement the legal heirs will be bound to execute the same and abide by the conditions.

16. If the Range Collector noticed any irregularity in the working of the contractor, he can suspend the contract till the mistake was rectified or suspend it and send at the risk of the contractor or fine the contractor up to a maximum of 25 per cent of the sale amount according to the gravity of the offence committed but an extension of the lease period will be granted.

17. Provisions of a clause in the lease amount will be recorded off in the nearest report (i.e., fractions of less than half are disregarded and half a rupee and over are taken as a rupee).

18. The boundaries of the area entrusted for sale will be marked out by the bidder at the time of sale and entered in the agreement. The paths through which records should be effected will be modified at the time of sale.

19. As little damage as possible is to be caused to the surrounding vegetation in felling and removal.

20. The period of lease is stipulated in schedule B and will always end with 30th June 1923.

21. The contractor must protect the forest area from fire and is bound to help the department in putting out fire in the forest.

22. The contractor should submit monthly accounts to the Range Officer by the 10th of every month giving the kind and quality of the produce removed by him.

23. All materials, tools, loaded goods are to be stored as possible signed and issued by the contractor. The permits shall be applied to the contractor at the time of the agreement. The items of permits to contractors for felling and removal of themselves is not permitted and all felling must be done out by the contractor's order.

24. The contractor shall not dispose of or sublet the lease or any part thereof without the written permission of the Estate Collector.

25. The contractor shall be responsible for the loss of himself and his agents, all of all persons authorized by him in his job, any or remove the produce.

26. The contractor or his authorized agent shall always be present at the spot where the work goes on.

ESTATE OF JAMES HUME (DECEASED).

Tax Administrator General of Madras hereby gives notice that he is administering from the 2nd day of May 1929 the estate of James Hume, Cotton Planter, late of Elia Hill, Madras, Ceylon and Ceylonian Gardens, Kensington, London, and now deceased under Letter of Administration granted to him on the 24th day of April 1929, by the High Court of Madras and that all persons having claims against the said estate as creditors, next of kin, legatee or in any other manner whatsoever should prefer their claims to the said Administrator General on or before the 15th day of July 1929, after which date he will proceed to make a distribution of the assets of the said estate and will, so far as in such distribution only such claims as shall have previously been established to his satisfaction.

Madras, 2nd May 1929.

ESTATE OF T. VENKATASUBBIA PILLAI (DECEASED).

Tax Administrator General of Madras hereby gives notice that he is administering from 2nd May 1929 the estate of T. Venkatasubbia Pillai, late Head Assistant Clerk, Agents Office, Madras and Southern Railway Company, Limited,

Madras, but now deemed under Letters of Administration granted to him on the 1st May 1929 by the High Court of Madras and that all persons having claims against the said estate as creditors, next of kin, legatee or in any other manner who have or should prefer their claims to the said Administrator do so before the 21st June 1929 after which date he will proceed to make a distribution of the assets of the said estate and will recognize in such distribution only such claims as shall have previously been established to his satisfaction.

H. D. COCKBURN,
Administrator-General.

Madras, 4th May 1929.

MADRAS PORT TRUST.

MINUTES OF A BOARD MEETING.
No. 1 on 1929-30, HELD ON FRIDAY, THE
2nd MAY 1929.

PRESENT:

Mr. G. G. Armstrong, C.E.S., M.A., F.R., MEMBER,
Chairman.
Mr. P. R. Wilton, M.B., F.R., MEMBER.
Mr. M. H. Gandy.
Mr. C. R. Wainwright, C.E.S.
M.E.Ry. Dewan Bahadur Sardesai Chakrabarty-
dasi Gani.
M.H.Ry. Dewan Bahadur G. Sampayarswami Choud
Gani, M.L.C.
Mr. R. C. M. Stevens.
Mr. Kenneth Epp.
Mr. C. H. Wainwright, M.L.C.
Mr. R. D. Donnan.
Mr. H. S. Wilton.

42. Read, approved and resolved the minutes of the proceedings of the previous meeting held on Friday, the 18th April 1929.

43. Read a letter, No. 953-G-1, dated the 27th April 1929, from Capt. R. H. Moncrie, R.I.M., President Port Officer, and a Trustee of the Port, stating that he will be absent from Madras for a period not exceeding three months from the 27th April 1929.

Resolved that Capt. R. H. Moncrie, R.I.M., be granted permission to be absent from the meetings of the Board during the aforesaid period of his absence from Madras.

44. Read a note by the Chief Engineer stating that the existing board gauge, tonnage in the existing Shed Yard in the Workshops is not sufficient capacity to take the Trust's 'A' class locomotives and covered goods wagons and submitting a plan (No. 1443) and an estimate amounting to Rs. 15,600 for the laying of a rectangular railway track near the Trust's General Stores Depot for housing locomotives and board gauge wagons.

Resolved that the plan and the estimate be approved and that sanction of Government be applied for under the Madras Port Trust Act be obtained to the extent of the expenditure in Capital Funds being provided by contributions from Revenue to Capital.

45. Read a note by the Chief Engineer stating that the existing two locomotives in the Trust's Yard, built in the year 1908, are on the Northern side of Transit Shed No. 1 and the other at the south-west corner of the Coal Yard, require rebuilding and submitting an estimate amounting to Rs. 1,400 for building two new and larger locomotives.

Resolved that the estimate be approved and that the expenditure be defrayed on Revenue Road 2 Engineering and Maintenance (vi) New Motor Works.

46. Read again Resolution No. 4, dated the 4th April 1929, approving of the purchase from Messrs. Stewart & Lloyd, Limited, Calcutta, of about 24 7/8 tons of mild steel round bars of sizes varying from 1 1/2 to 1 1/2 diameter, required for the reinforced concrete work of the New Deep Water Quay.

Read a note by the Chief Engineer amplifying the circumstances under which revised quotations for the supply of the mild steel bars had to be called for and recommending for acceptance the quotation given by Messrs. Jenson & Co., Ltd., on their letter, No. Q 494, dated the 23rd April 1929.

Resolved, in acceptance of the approval accorded in the above quoted resolution, to confirm the sanction accorded by resolution in the purchase of the bars from Messrs. Jenson & Co., Ltd., at the rates quoted by them in their letter above referred to.

47. Read a note by the Chief Engineer submitting the tender received for the supply of 1,000 tons of best class steam coal and 2,000 tons of best New Zealand coal required by the Trust during the year 1929-30 and recommending for acceptance the acceptance of the tender of Messrs. Perry & Co., Ltd., Madras, Agents, The Bengal Coal Co., Ltd., Calcutta, for the supply of 2,000 tons of Best Bengal coal at the rate of Rs. 14-12-6 per ton and of 1,000 tons of Deccan-ghat coal at the rate of Rs. 14-12-6 per ton, delivered at the Company's stock in the Trust's premises.

Resolved that Messrs. Perry & Co.'s tender be accepted subject to the consent of Government to the extent as required by section 47 of the Madras Port Trust Act.

48. Read a note by the Chief Engineer submitting for approval the tender and agreement, dated the 24th April 1929, given by Contractor, Mr. Abdul Latheef, for building reinforcement and for supplying them as required for the manufacture of about 20 reinforced concrete piles for the New Deep Water Quay.

Resolved that the tender and agreement be approved.

49. Read a note by the Chief Engineer regarding sanction to the sale to the Provisional Port Officer, Madras, at the rate of Rs. 30 per ton of 34 odd seven-eighths inch of 20 and 20 1/2 inch, weighing 121 cwt., which were received from the Trust's quarry sidings at Palavaram and are now lying at that place.

Resolved that the proposed sale of the rails be approved.

50. Read again Resolutions Nos. 138 and 449, dated respectively the 18th May 1928 and the 21st October 1928, as the subject of the sale of 1,242 yards of electric cables out of the 1,400 yards obtained for the work of lighting the edge of the West Quay by means of electric lights and as the balance of the small hydraulic crane on the quay—a work which was not proceeded with.

Read a note by the Chief Engineer requesting sanction to the sale to Messrs. The Composite Engineering Co. (Madras), Ltd., of 50 yards of the cable for a sum of Rs. 75-4-8.

Resolved that the sale be approved.

51. Read an application from Mr. W. Effe, a partner, solicitors, Chief Engineer, for leave out of office for 7 1/2 months, viz., 6 months on average pay and 1 1/2 months on half average pay, with sick leave from the 1st July 1929 at either later date of his willing himself of the leave.

Resolved that, subject to sanction of Government as required by section 90 of the Madras Port Trust Act, Mr. Effe be granted the leave applied for by him.

72. Resolved with reference to Resolution No. 7, dated the 16th April 1929, appointing Mr. F. Whyte, M.A., J.B.S., J.B.S., as Executive Engineer on a salary of Rs. 1,500-0-0-0, with fees quarters at a house allowance of Rs. 100 per annum in two cheques, that Mr. Whyte joined his appointment on the forenoon of the 1st May 1929.

73. Read a note by the Chief Engineer on an application from Capt. H. H. Brown, M.A., A.M.S., M.A., M.A., as Executive Engineer, for permission to be acting as an Executive in the Government Technical School, Madras, and to his accepting fees therefor as the scale mentioned in his application.

Resolved that the permission applied for be granted.

74. Read an application from Comdr. E. W. V. Batty, R.N., Deputy Port Commissioner, for a period resumption of the work paid for him for the French quarters occupied by him, during the quarantine being partially workable for a period of about four weeks during February and March 1929 when the repairs being carried out in the quarters. Read also notes thereon by the Chief Engineer and the Chairman.

Resolved that Comdr. Batty be granted a resumption of rent according to Rs. 45-0-0.

75. Read again Resolution No. 208, dated the 16th November 1928, according that Mr. A. Mackenzie, Senior Harbour Master, applied himself with effect from the forenoon of the 2nd November 1928 at the house as storage pay for a period of six months granted him in Resolution No. 495, dated the 2nd November 1928. Read also Resolution

No. 521, dated the 16th November 1928, approving of the appointment of Mr. Guy Terrence, Harbour Master, to act as Senior Harbour Master during Mr. Mackenzie's absence on leave and permitting Mr. Terrence to draw, while so acting, the allowance of Rs. 100 per annum attached to the post of Senior Harbour Master.

Read an application from Mr. Mackenzie for an extension, on average pay, for a further period of two months, of the leave already granted to him and same thereon by the Deputy Port Commissioner and the Chairman recommending that Mr. Mackenzie be granted the extension of leave applied for by him and that the salary arrangements approved in Resolution No. 201 were above be continued during the period of the extension of leave.

Resolved to approve of the recommendations.

76. Read a note by the Chief Engineer stating that Working Agreement A. Sikkens Station, was absent from duty from the 23rd February to the 26th March 1929, both days inclusive, consequent on an injury received by him on the 21st February 1929 while on duty and recommending, for reasons given, that he be paid half pay for the entire period of his absence—this payment to include all benefits admissible to him under the Workmen's Compensation Act.

Resolved that the recommendation be approved.

77. The following statement of agreements entered on behalf of the Board by the Chairman or by the Chairman and two trustees and sealed with the seal of the Institute since the 16th April 1928 was referred to be recorded:—

The Standard Barometer and Thermometer are used at 8 a.m., 10 a.m., 4 p.m. and 8 p.m. and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The centre of the Barometer is twenty-two feet above the level of the sea, and the receiver of the rain-gauge is two feet from the ground. The wind, sea and general weather registered are for the current and day—from midnight to midnight.

The total quantity of rain collected since 1st January 1922 is 9.54 inches, the average due for the same period being 5.76 inches.

A. A. KARAYANA AYYAR,
Assistant Meteorologist.

Madras Observatory,
22nd May 1922.

SUPPLEMENT TO PART II OF THE FORT ST. GEORGE GAZETTE

No. 21]

MADRAS, TUESDAY EVENING, MAY 21, 1919.

[Part II, 2 p.m.]

ABSTRACT OF SEASON REPORT FOR THE WEEK ENDING 18th MAY 1919.

GENERAL SUMMARY.

Reports from Guntur, Madras and Raman not received. Night showers except in the South. Sowing of paddy proceeding on the West Coast. Standing crops generally fair to good. Harvest of paddy in parts of the Coimbatore and the central districts proceeding; culture poor to normal. Condition of cattle generally fair to good. Fodder generally sufficient. Water-supply generally sufficient except in parts of Gajum, Vengalpet, Bellary, Anantapur and Salem. Prices generally stationary.

K. RAMAN NAYAR,
Assistant Secretary.

By order (Joint Revenue and Settlement),
Madras, 21st May 1919.

DISTRICT REPORTS.

GANJAM.

Water-supply insufficient for agricultural purposes in parts. 40 to 50 feet of water in the Pottasunda reservoir (P.T.L. 493) and 30 to 40 feet of water in the Sunda reservoir (P.T.L. 50). Standing crops fair. Harvest of sugarcane and cotton proceeding; culture of sugarcane fair; water poor. Pasture generally available. Fodder generally sufficient. Condition of cattle good.

VIZAGAPATAM.

Water-supply insufficient for agricultural operations in some taluka. Pasture available. Fodder sufficient. Condition of cattle generally good.

EAST GODAVARI.

Water-supply sufficient. The Godavari 6 to 7 feet above the level of the taluk. Standing crops fair. Harvest of second crop paddy proceeding in the taluk; culture fair to normal. Pasture generally available. Fodder sufficient. Condition of cattle generally good.

B-50-1

WEST GODAVARI.

Water-supply sufficient for drinking. Harvest of second crop paddy proceeding; culture poor to normal. Pasture scarce. Fodder sufficient. Condition of cattle generally good.

KISTNA.

Water-supply generally sufficient. The Kistna 30 feet above the level of the taluk. Standing paddy very fair. Harvest of second crop paddy and sugarcane proceeding; culture fair. Pasture available except in parts. Fodder sufficient. Condition of cattle generally good.

GUNTUR.

[Report not received.]

KURNOOL.

Water-supply sufficient for drinking. The Tungabhadra 30 feet below level. Pasture generally scarce. Fodder generally sufficient. Condition of cattle generally good, but subpar in parts.

BELLARY.

Water-supply for irrigation sufficient in wells and deep channels and generally insufficient in open channels and tanks. Drinking water generally sufficient except in parts of three taluka. Sowing of sugarcane proceeding in parts of two taluka. Pasture generally scarce. Fodder sufficient. Condition of cattle good, but subpar in parts.

ANANTAPUR.

Water-supply insufficient for irrigation except in limited areas under wells and some tanks. Pasture scarce. Fodder sufficient. Condition of cattle generally good.

CHIDAMPUR.

Water-supply generally sufficient. Pasture scarce. Fodder sufficient. Condition of cattle generally good.

NELUMBE.

Water-supply sufficient in wells, 800 feet at water in the Kattigal reservoir (F.T.L. 3146) and oil in Majed reservoir (F.T.L. 224). Pasture generally available. Fodder sufficient. Condition of cattle generally good.

CHINGLEPUT.

Water-supply generally sufficient. Standing paddy crop fair. Pasture available. Fodder sufficient. Condition of cattle generally fair.

SOUTH ARCOT.

Water-supply generally sufficient. Pasture available. Fodder sufficient. Condition of cattle generally good.

CHITTOOR.

Water-supply generally sufficient in wells and below ground in tanks except in three divisions. Standing crops good. Harvest of paddy and mil printing in parts, cottons fair. Pasture available. Fodder sufficient. Condition of cattle not satisfactory.

NORTH ARCOT.

Water-supply generally sufficient. Standing paddy crop generally fair. Pasture available. Fodder generally sufficient. Condition of cattle generally good.

SALEM.

Water-supply for irrigation sufficient in parts of Simeerguda, Kishanpur, Ottur, Dhammapur, Alur and Sore and under the Chavay channels in the Marakkal taluk and generally sufficient elsewhere. Drinking water generally sufficient except in parts of two taluks. Sowing of paddy, cottons and mil printing proceeding. Sowing of mil printing. Standing crops fair. Pasture generally available. Fodder sufficient. Condition of cattle generally good.

COIMBATORE.

Water-supply generally sufficient in tanks and channels. Supply in garden wells generally sufficient except in parts of three taluks. Eight feet of water in the Chavay at Erode. Sowing of paddy, cottons, mil, and groundnut and printing of sugarcane proceeding; wheat matured. Standing

crops generally fair to good. Harvest of paddy and cotton proceeding and printing of cotton continuing; cottons of mil printing matured; mil fair to good. Pasture generally available. Fodder sufficient. Condition of cattle generally fair.

TRICHINOPOLY.

Water-supply in wells and related tanks insufficient in parts. Supply in river abundant and provided tanks adequate. Standing crops fair. Pasture available. Fodder sufficient. Condition of cattle fair.

TANJORE.

Water-supply sufficient. Height of water at the Grand Anicut 10 feet below crest. Report regarding the discharge in the Coleroon over Lower Anicut not received. Pasture generally available. Fodder generally sufficient. Condition of cattle in parts.

MADURA.

[Report not received.]

RAMNAD.

[Report not received.]

TINNEVELLY.

Water-supply sufficient. No flow over the Periyar dam. Discharge adequate. Pasture available. Fodder dear in parts. Condition of cattle generally fair.

MALABAR.

Water-supply sufficient. Sowing of first crop paddy proceeding. Pasture generally available. Fodder sufficient. Condition of cattle fair.

SOUTH KANARA.

Water-supply sufficient. Sowing of first crop paddy proceeding in parts. Standing crops fair. Harvest of first crop paddy proceeding in one taluk; cottons fair to good. Pasture generally available. Fodder sufficient. Condition of cattle generally good.

THE MYSORE.

Water-supply sufficient. Sowing of paddy proceeding in one taluk. Standing crops fair. Printing of mil and pepper proceeding; cottons of mil printing. Pasture available. Fodder sufficient. Condition of cattle fair.
